Heads-up Display Market in Military Aviation in the US 2015-2019

Description:
About HUDs
An HUD is a display indicator that displays key flight information onto a transparent screen, a combiner, or windshield, positioned in front of the pilot's line of sight. The major application sectors for HUDs are automotive and aviation. HUDs help to increase the situational awareness and enhance safety margins in these sectors. The primary components of HUDs include the following: combiner, projector unit, display panel, and video generator.

The analysts forecast the heads-up display market in military aviation in the US to grow at a CAGR of 3.49% in terms of unit shipment during 2014-2019.
