Global Blended E-learning Market 2015-2019

About Blended E-learning:

Blended learning combines traditional face-to-face interaction with WBL. This mode of learning is prevalent in the K-12 segment. To meet with the evolving needs of students and academicians, regulators in the education industry worldwide are emphasizing on this education methodology than traditional learning methods. Blended learning has made knowledge delivery more productive and efficient as instructors share their resources and instructions online, enabling students to access these resources at their convenience. Many investors, globally, are also thus investing in the fields of education and technology.

The author forecasts the global blended e-learning market to grow at a CAGR of 11.091% during 2014-2019.
