Puerto Rico Pharmaceuticals and Healthcare Report Q4 2015

Description: While the forecast for Puerto Rico has remained at a stable trajectory, the US territory is facing an uncertain future, caused by United States congressional healthcare decisions that much of the island’s population feel will lead to widespread economic harm. In addition to this, Puerto Rico’s reputation as being a hub of pharmaceutical and biotech manufacturing is in jeopardy due to changes to US laws that protected multinational manufacturing companies based there from US taxes.

Headline Expenditure Projections
- Pharmaceuticals: USD3.02bn in 2014 to USD3.03bn in 2015; 0.40%. Forecast up compared with Q315.

Contents:

- SWOT
- Political
- Economic
- Operational Risk
