Description:

Summary
Jewelry, watches and accessories witnessed a steady growth in 2014 and sales in the product sector are expected to grow at a CAGR of 1% over the analysis period. Specialist retailers accounted for 59% of sales in 2014 while sales through online channel is also gaining momentum. The retail market for jewelry, watches and accessories is set to grow at a CAGR of 1% over the forecast period to reach EUR7.3 billion by 2019. The sector was affected by ongoing economic uncertainties in the country, where consumers are becoming more cautious about their spending levels. Consumer preferences have shifted towards lower priced products as a result of weakening purchasing power.

Key Findings
- Jewelry, watches and accessories accounts for a small share of the total retail sales in France.
- Specialist retailers were the most preferred channel for customers, having accounted for 59% of jewelry, watches and accessories sales in 2014.
- Customers are increasingly browsing online and social media to make informed decisions while buying luxury items.
- Sales through online channel stood at 6.5% of the total sales in the sector in 2014 and are expected to reach 8.8% by 2019.
