Global Social Networking Market 2015-2019

Description:

About Social Networking Market
Social networking involves groups of people with common interests coming together on a social platform and building relationships with the help of technology. The term social media is defined as a platform, such as websites and applications, that enable users to participate in social networking activities by creating, sharing or exchanging information, ideas, and pictures/videos.

Social media is not limited to Facebook, Twitter, and Google+. Currently there are more than 800 active social networking sites and several platforms, including mobile applications and digital pages for people to interact.

The authoranalysts forecast the global social networking ad-spending market to grow at a CAGR of 23.12% during 2014-2018.
