Global Chronic Lymphocytic Leukemia Therapeutics Market 2015-2019

Description:

About Chronic Lymphocytic Leukemia

Chronic lymphocytic leukemia is a malignant condition characterized by increased production of lymphocytes. It has been observed that the cancer first affects B-lymphocytes and then it can spread to other parts of the body. This leukemia is diagnosed mostly at later stages because of the slow buildup of the cancerous cells. During the course of the disease, the malignancy spreads to the spleen, liver, and lymph nodes. The course of the disease is heterogeneous, and prognosis is difficult. Symptoms include swelling of the lymph nodes, fatigue, fever, infection, pain beneath the ribs, and weight loss. Chronic lymphocytic leukemia can be treated with radiation, steroids, chemotherapy, targeted therapy, transplants (bone marrow, stem cell), and surgical procedure to remove the spleen (splenectomy).

The analysts forecast the global chronic lymphocytic leukemia therapeutics market to grow at a CAGR of 18.52% over the period 2014-2019.

Covered in this Report

In this report, The author covers the present scenario and growth prospects of the global chronic lymphocytic leukemia therapeutics market for the period 2015-2019. To calculate the market size, we consider revenue generated from the sales of various drugs used in the treatment of chronic lymphocytic leukemia.

Based on the type of molecule, we group the market into two categories:
- Biologics
- Small molecules

Based on the route of administration, we group the market into two:
- Oral
- Parenteral

This report includes a discussion of the market in the following three regions:
- Americas: The major countries focused in the Americas are the US, Canada, Mexico, and Brazil
- EMEA: The major countries in this region are the UK, Germany, Italy, France, Spain and Middle Eastern and African countries such as Israel, South Africa, Egypt, Sudan, Kuwait, Saudi Arabia, Qatar, and the UAE
- APAC: The major countries in this region are Japan, China, Australia, Singapore, South Korea, and India. APAC is a major untapped market with many leading vendors in the global chronic lymphocytic leukemia therapeutics market.

The report also presents the vendor landscape and a corresponding detailed analysis of the top vendors in the market. In addition, it discusses the major drivers and challenges, as well as the key trends.

Key Regions
- Americas
- APAC
- EMEA

Key Vendors
- F. Hoffmann-La Roche
- Novartis
- Teva Pharmaceutical Industries

Other Prominent Vendors
- Actavis
- Amgen
- Aryogen
- Astellas
