Global IT Training Market 2015-2019

Description:

About IT Training
IT training refers to the professional training offered by universities, enterprises, and non-formal professional institutes that comprise of B2C (business-to-consumer), B2G (business-to-government), and B2B (business-to-business) training. More number of institution have begun to offer informal and social learning platforms to teach IT, which has changed the learning landscape over the past decade. These approaches are still in their starting stage as the penetration level is still far from maturity; therefore, many organizations have realized that most of the learning takes place outside of a classroom or from online course that will lead to the establishment of coaching, experiential off job training, and IT learning environments.

The analysts forecast the global IT training market to grow at a CAGR of 6.2% percent over the period 2014-2019.
