Wheeled Loaders Market in Europe 2015-2019

Description:

About Wheeled Loaders
A wheeled loader is heavy equipment that helps move asphalt, dirt, snow, logs, raw materials, construction and demolition debris, rocks, and sand during construction activities. It is also used to dump materials on dump trucks and conveyor belts. The bucket attached in front is customized and varies from 50 kW to 1,000 kW.

The report forecasts the wheeled loaders market in Europe to grow at a CAGR of 5.55% over the period 2014-2019.

Covered in this Report
This report covers the present scenario and the growth prospects of the wheeled loaders market in Europe for the period 2015-2019. To calculate the market size, the report considers the consumption of wheeled loaders in Europe. It does not consider the sale of used equipment nor revenue generated from contracts and maintenance. It focuses on the sale of wheeled loaders over the past few years and the condition of the global construction industry as a whole. The performance of the wheeled loaders market is analyzed with the help of the predicted CAGR after analysis of the present condition of the market.

In addition, the report covers the key vendors present in the market and a detailed analysis of these vendors. It also presents the geographical analysis and data on the key leading countries in Europe. In addition, it discusses the major drivers that influence market growth, the challenges faced by vendors and the market at large, as well as the key trends emerging in the market.
