Global Coated Abrasives Market: Study on Volume and Value Analysis 2015-2019

Description:

About coated abrasives
Abrasives are used in applications such as grinding, abrading, and cleaning of objects to give them the required shape and finish. Coated abrasive, also referred to as a flexible abrasive, consists of a backing of cloth, paper, polyester, or vulcanized fiber; a bonding system; and an abrasive grain coating. They are used in the transportation, machinery, and metal fabrication sectors. Abrasives are used in the production of consumer goods, prosthetics, and implants. Aluminum oxide, silicon carbide, zirconia alumina, and ceramic aluminum oxide are the raw materials used in the production of these abrasives.

The analysts forecast the global coated abrasives market to grow at a CAGR of 6.74% over the period 2014-2019.

Covered in this report
This report covers the present scenario and the growth prospects of the global coated abrasives market for the period 2015-2019. To arrive at the market shares of vendors and to calculate the market size, the report considers the revenue generated through the sales of coated abrasives. The report also focuses on the market landscape, the vendor landscape and a corresponding detailed analysis of the top ten vendors and three suppliers in the market.

The report also provides data on the different segments of the market, which are based on the following criteria: applications (including consumer goods sector, machinery sector, metal fabrication sector, transportation sector, and other applications such as construction and woodworking); backing material types (including cloth, cotton, fiber, paper, polyester, and others such as films); coat types (including closed, open, and others coat such as semi-open coat); grain types (including aluminum oxide, alumina zirconia, ceramic, silicon carbide, and others); form (including belts, discs, sheets and rolls, wheels, and others such as polygons and strips); and geography (including APAC, Europe, North America, and ROW).

In addition, the report discusses the major drivers that influence the growth of the market. It also outlines the challenges faced by the vendors and the market at large, as well as the key trends that are emerging in the market.

The report, Global Coated Abrasives Market: Study on Volume and Value Analysis 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts.

Key vendors
- 3M
- Bosch
- Henkel
- Hermes Schleifmittel
- KWH Group
- Saint-Gobain
- SAIT ABRASIVI
- STARCKE Abrasives
- Tyrolit
- Vereinigte Schmirgel-und Maschinen-Fabriken

Other prominent vendors
- Allied High Tech Products
- Almatis
- A-One Coated Abrasive
- ARC Abrasives
- Barton International
- Calumet Abrasives
- CUMI
- Deerfos
Market drivers
- Increased use in electronics industry
- For a full, detailed list, view our report

Market challenges
- Declining demand for natural grain-based coated abrasives
- For a full, detailed list, view our report

Market trends
- Use of stearate coatings in products

Key questions answered in this report
- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
