Global Casein and Caseinates Market 2015-2019

Description:

About caseins and caseinates

Caseins are proteins found in milk; they have an essential amino acid composition, which is required for the development and growth of humans. Caseins are profoundly absorbable in the digestive system. They are used for food and non-food applications.

Caseinates are the dissolvable salts acid caseins. They are composed of all the essential amino acids, have excellent nutritional properties, and have a minimum protein content of about 90%. Caseinates are utilized as emulsifying and thickening agents. These are highly functional proteins and are suitable for various food applications.

The analysts forecast the global casein and caseinates market to grow at a CAGR of 3.14% over the period 2014-2019.
