Iran: Pre-Market Entry Handbook

Description: To assist businesses exploring possibilities in Iran, the Iran: Pre-Market Entry Handbook has been compiled as a general guide allowing businesses to position themselves accordingly if the deal is ratified. While the Iranian market will likely remain off limits for a while for many industries even if there is permanent agreement, others may find opportunities within reach with the gradual or permanent lifting of sanctions in particular areas.

The Iran: Pre-Market Entry Handbook addresses the recent status of the negotiations and the various layers of sanctions placed on Iran by the United Nations, the United States, and the European Union.

Section I provides an up-to-date summary of how the negotiations have reached this point to better understand where they might progress in the future.

Section II provides an overview of all the sanctions regimes currently in place and what business activities are currently prohibited.
