
Description: The penetration of facility management solution can be widely seen in sectors such as retail, healthcare, and the public sector, utilities, and aerospace and defense. As the infrastructure is developing at very high growth rate, new facilities are also developing quickly. Major industry verticals with such high infrastructural growth are public sector, manufacturing, real estate, and retail among others. Technological advancements have significantly supported the facility management market to grow. New databases technologies enable real-time cross functional data sharing abilities. Maintenance management and real estate portfolio management are the fastest growing solutions in the market. North America is estimated to have the largest market size of market. However, emerging economies of the APAC region are expected to have immense growth potential.

The report will help the application developers, service providers, software providers, cloud service providers, market leaders, or new entrants in this market in better understanding of the competitors and gain more insights to better one's position in business. There is a separate section on competitive landscape, which includes competitor ecosystem, mergers and acquisitions, partnerships, and agreements. There are also company profiles of ten players in this market. In this section, market internals have been provided that can put one ahead of the competitors.

The global facility management market is estimated to grow from USD 27.25 Billion in 2015 to USD 49.44 Billion by 2020, at a Compound Annual Growth Rate (CAGR) of 12.7%.
