India Elevators Market Forecast and Opportunities, 2020

Description: According to "India Elevators Market Forecast & Opportunities, 2020", elevators market in India is projected to exhibit significant growth over the next five years, with the market forecast to surpass US$ 1.6 billion in 2020. Growth in the market is anticipated on account of growing infrastructure development projects in the country, which require elevators for vertical transportation. Metro projects across various major cities are also expected to fuel demand for new equipment installation, along with maintenance and modernization of already installed elevators. In 2014, residential sector was the largest end-user of elevators, followed by commercial, industrial and government sectors. Major players operating in India elevators market include KONE, Otis, Schindler, Johnson, and ThyssenKrupp.

Increasing number of residential projects coupled with rising population density in metros and major cities in India, have been driving the country's elevators market over the last five years. The need to provide accommodation to the continuously growing urban population has led to an in an increase in the number of high rise building in the country, thereby resulting in rising skyline of cities. Also, rising foreign investments in the country have stimulated the demand for office spaces over the last decade. In consonance with these developments, the demand for elevators from residential and industrial units has been increasing to facilitate vertical commute of people and transportation of freight. Moreover, with rapid development of infrastructure in urban regions, the number of commercial complexes and office buildings in India has also been increasing. These commercial buildings have also been contributing to the surge in demand for sophisticated vertical transportation systems in the country.
