Cancer Treatment Drugs Industry Forecasts - China Focus

Description: This study focuses on China's Cancer Treatment Drugs industry forecasts. In the two past decades, the industry has been growing at a fast pace. The dramatic expansions of the manufacturing capabilities and rising consumer consumptions in China have transformed China's society and economy. China is one of the world's major producers for industrial and consumer products. Far outpacing other economies in the world, China is the world's fastest growing market for the consumptions of goods and services. The Chinese economy maintains a high speed growth which has been stimulated by the consecutive increases of industrial output, imports & exports, consumer consumption and capital investment for over two decades. Rapid consolidation between medium and large players is anticipated since the Chinese government has been encouraging industry consolidation with an effort to regulate the industry and to improve competitiveness in the world market.

Although China has enjoyed the benefits of an expanding market for production and distribution, the industry is suffering from minimal innovation and investment in R&D and new product development. The sector's economies of scale have yet to be achieved. Most domestic manufacturers lack the autonomic intellectual property and financial resources to develop their own brand name products.

This new study focuses on industry trends and forecasts with historical data (2005, 2010 and 2015) and long-term forecasts through 2020 and 2025 are presented. The primary and secondary research is done in China in order to access up-to-date government regulations, market information and industry data. Data were collected from the Chinese government publications, Chinese language newspapers and magazines, industry associations, local governments’ industry bureaus, industry publications, and our in-house databases.

The author is one of the leading sources for up-to-date market information and research on the fastest-growing Chinese markets. They have published over 1,500 reports focusing on the Chinese markets, industry forecasts and company profiles. The report provides hard-to-find market data and analyses. Our publications are intended to help international marketers identify business opportunities and promote their product sales in the Chinese markets.

Major producers in China are profiled. A selection of these companies can be seen in the 'Companies Mentioned' tab. The full list can be viewed upon purchase of the report.

Contents:

I. INTRODUCTION
   Report Scope and Methodology
   Executive Summary

II. CANCER TREATMENT DRUGS PRODUCTION AND DEMAND
   Overview
   Western Cancer Treatment Drugs Production and Demand
   Main Western Cancer Treatment Drugs Introduction
   Major Producers
   Foreign Trade
   Total Output and Demand
   Pricing Trends
   Kinds of Western Cancer Treatment Drugs Output
   Alkylation's Preparations
   Anti-metabolizability Drugs
   Antibiotics
   Hormone Species
Western Cancer Treatment Drugs Output and Demand for Kinds of Cancer Treatment

Head-neck Cancers
Respiratory System Cancers
Digestive System Cancers
Drainage System Cancers
Bones System Cancers
Blood System Cancers
Women Section Cancers
Other Style Cancers

Output and Demand by Region
Northeast
North
Southeast
Central South
Southwest
Northwest

Chinese Traditional Cancer Treatment Drugs Production and Demand

Chinese Traditional Cancer Treatment Drugs Introduction
