### Summary: Canadian Solar Inc. Sep 15

**Description:**

Abstract

Intense competition and significant pricing pressure in the fragmented global solar market. High dependence on government subsidies to drive demand. Strong market position, adequate technology, and good operating efficiency. Highly volatile profitability. Materially higher debt leverage over the next two years because of the new strategy of holding solar projects through a yield company. High volatility in cash flow adequacy and leverage. Adequate liquidity.

The stable outlook for the next 12 months reflects our view that Canadian Solar Inc. (CSI) can maintain its cost competitiveness and relatively stable profitability, and moderately increase its market share amid rising demand. We also expect CSI to increase its ratio of debt to EBITDA to 2x-3x in 2015-2016 because of its strategic move to...
