High Temperature Plastics - Global Strategic Business Report

Description: This report analyzes the worldwide markets for High Temperature Plastics in US$ Million by the following End-Use Industries: Automobile, Electrical/Electronics, Chemical/Industrial, Aerospace, Medical, and Others. The report also analyzes the total global market and the US and European market for High Temperature Plastics by the following product segments: Fluoropolymers, Polyimides, High Performance PA, Polyphenylene Sulfides, Liquid Crystal Polymers, Polyketones, and Polysulfones.

The report provides separate comprehensive analytics for the US, Japan, Europe, and Rest of World. Annual estimates and forecasts are provided for the period 2013 through 2020. Also, a seven-year historic analysis is provided for these markets. Market data and analytics are derived from primary and secondary research.

Company profiles are primarily based on public domain information including company URLs. The report profiles 91 companies including many key and niche players such as:

- 3M
- Arkema Group
- Asahi Glass Company, Ltd.
- BASF SE
- Bayer MaterialScience AG
