Global Cold Insulation Market 2015-2019

About cold insulation
Insulation is a term used to define inhibition or retardation of dissipation or absorption of heat or electricity. Cold insulation is a technology that has the capability to reduce or eliminate loss of energy from materials, equipment, and infrastructure to obtain energy efficiency.

The report forecasts the global cold insulation materials market to grow at a CAGR of 8.56% over the period 2014-2019.

Covered in this report
The report covers the current scenario and growth prospects of the global cold insulation materials market for the period of 2015-2019. To calculate the market size, the report segments the market based on:
- Types
- Applications
- Geography

The market is divided into the following segments based on type:
- Fiber glass
- Polyurethane and polyisocyanurate foams
- Polystyrene foam
- Others (phenolic foams, cellular glass, EPDM, perlite, rubber, and aerogels)

The market is divided into the following segments based on application:
- Oil and Gas
- Refrigeration
- Chemicals and cryogenic gases
- HVAC
- Others (biological applications, pharmaceutical applications, jet propulsion fuel industry)

The report, Global Cold Insulation Materials Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers Europe, APAC, North America, and ROW; it also covers the vendor landscape of the global cold insulation materials market and its growth prospects in the coming years.

The report includes a discussion on the key vendors operating in this market.

Key regions
- China
- Germany
- India
- USA

Key vendors
- Armacell International Holdings
- Aspen Aerogels
- BASF
- Bayer Material Sciences
- Huntsman

Other prominent vendors
- Arabian Fiber Glass Insulation
- CertainTeed
- Dow Chemical
- Evonik industries
- Fletcher Insulation

Market drivers
- Rising energy costs
- For a full, detailed list, view the full report

Market challenges
- High cost of raw materials
- For a full, detailed list, view the full report

Market trends
- Development of new products
- For a full, detailed list, view the full report

Key questions answered in this report
- What will the market size be in 2019 and what will the growth rate be?
- What are the key Market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

PART 04: Introduction
Key market highlights
Market overview
Market size and forecast
Five forces analysis

PART 05: Market segmentation by type
Global cold insulation materials market by type 2014-2019
Market share of types of cold insulation materials 2014 and 2019
Fiberglass as a cold insulation material 2014-2019
Polyurethane and polysiocyanurate foams as cold insulation materials 2014-2019
Polystyrene foam as a cold insulation material 2014-2019
Other types of cold insulation materials

PART 06: Market segmentation by application
Global cold insulation materials market by application 2014-2019
Market share of applications in the global cold insulation materials market 2014 and 2019
Cold insulation materials application in oil and gas industry 2014-2019
Cold insulation materials application in refrigeration industry 2014-2019
Cold insulation materials application in chemicals and cryogenic gases industry 2014-2019
Cold insulation materials application in HVAC industry 2014-2019
Cold insulation materials application in other industries 2014-2019

PART 07: Geographical segmentation
Geographical segmentation of global cold insulation materials market 2014-2019
Market share of regions in global cold insulation materials market 2014 and 2019
Cold insulation materials market in Europe 2014-2019
Cold insulation materials market in APAC 2014-2019
Cold insulation materials market in North America 2014-2019
Cold insulation materials market in ROW
PART 08: Key leading countries
