Summary: Cameroon (Republic of) Jun 11

Description: Abstract
The ratings on Cameroon are constrained by its low level of development, weak growth performance, and vulnerability to external shocks. The ratings are supported by the moderate debt level, as well as membership in the CEMAC (Communaute Economique et Monetaire d’Afrique Centrale) zone, which provides a fixed link to the euro. Cameroon is the largest economy in the CEMAC zone, although its economic growth continues to lag behind the average growth rate for the Sub-Saharan African region, despite the current economic recovery. Given the recovery in the primary sector, led by growth in the timber sector and food crop production, Cameroon's 2010 GDP per capita growth is estimated to have reached 0.9%. We expect growth in 2011 to remain supported...

Standard and Poors RatingsXpress Credit Research provides in-depth coverage of international corporates, financial institutions, insurance companies, utilities, sovereigns and structured finance programs. RatingsXpress Credit Research lets users determine the credit rating of holdings and identify key factors underlying an issuer’s creditworthiness, distinguishes the different risk exposures for new and existing deals, and provides an understanding of how their analysts interpret key regulatory, political and environmental events and their economic impact.

This product consists of a Summary Analysis: Bi-annual (at least). An abbreviated analysis containing Standard & Poor’s issuer credit ratings as of the time the article was published. The analysis includes a rating rationale - the basis on which the rating was assigned - and an outlook section if the issuer is not on CreditWatch. Financial statistics are not included.
