Workforce Management Market by Solution, by Service, by Deployment, by Organization Size, by Vertical, by Region - Global Forecast to 2020

Description:

The penetration of workforce management solutions can be widely seen in sectors such as government, retail, healthcare, and the BFSI. Increasing cloud and mobile penetration has introduced new methods of working in various sectors. The concept of real-time workforce management is gaining popularity due to the increasing complexity in business activities and rapid change in the conditions of people and their plans. Technological advancements have significantly supported the growth of the workforce management market. Talent management and workforce analytics are the fastest-growing solutions in the market. The market in North America is expected to have the largest market size; however, the emerging economies in the APAC region are expected to have immense growth potential.

The report will help application developers, service providers, software providers, cloud service providers, market leaders, or new entrants in this market in understanding the competitors better and gain more insights to improving their position in business. There is a separate section on competitive landscape, which includes details on the competitor ecosystem, mergers and acquisitions, partnerships, and agreements. There are also company profiles of ten players in this market and some key innovators. In this section, market internals have been provided that can help put one ahead of the competitors.
