Global Flexible & Transparent Displays Market Forecast and Opportunities, 2020

Description: According to the report “Global Flexible & Transparent Displays Market Forecast & Opportunities, 2020”, the global market for flexible & transparent displays is estimated to reach 0.48 billion in 2015. In 2014, Americas emerged as the largest revenue generating region in the global flexible & transparent displays market due to booming retail, consumer electronics, automotive, defense and education sectors. Growing number of smartphone users, rising demand for digital signages by enterprises and corporates, upsurge in consumer demand for high-end technology televisions, etc., are projected to drive robust growth in Asia-Pacific flexible and transparent displays during the forecast period. Major players operating in the global flexible and transparent displays market include LG Display Co., Ltd, Samsung Display Co., Ltd., AU Optronics Corporation, etc.

Global flexible & transparent displays market is being driven by growth in consumer electronics, retail, automotive and other end user segments. Growing use of Head-Up Displays (HUDs) in luxury cars, surging demand for interactive classes in education sector, rising demand for flexible displays in healthcare sector, increasing adoption for curved televisions and smartphones, etc., are expected to propel growth in flexible & transparent displays market across the world in the coming years. Growing trend towards smart wearables such as wearable wrist bands, smartwatches, smart glasses, etc., increasing use of digital signage, mounting need for Head-Mounted Displays (HMDs) in defense sector and gaming & entertainment industry is also anticipated to fuel growth in flexible and transparent displays market through 2020.
