Geofoams Market by Type (EPS geofoams, XPS geofoams), by Application (Roadways, Building & Construction), and by Region (North America, Europe, Asia-Pacific, and Rest of the World) - Global Forecast to 2020

Description:
The market for geofoams is at a growing phase and is projected to continue so in the next five years (2015 to 2020). The demand for geofoams is high as it offers extensive cost savings and good load bearing properties. Wide scale infrastructural development in emerging countries such as China, India, Brazil, Saudi Arabia, and Qatar is leading the high demand for geofoams.

In this study, 2013 has been considered as the historical year and 2014 as the base year for estimating market size of geofoams. Different secondary sources such as company websites, encyclopedia, textile reports, organic exchange reports, and databases have been used to identify and collect information that is useful for this extensive commercial study of the global geofoams market. The primary sources, which include experts from related industries, have been interviewed to verify and collect critical information as well as to assess the future prospects of the market. The top-down approach has been implemented to validate the market size in terms of value and volume. With the data triangulation procedure and validation of data through primaries, the exact values of the overall market size and individual market sizes have been determined and confirmed in this study.

The geofoams market has a diversified and established ecosystem of upstream players such as raw material suppliers and downstream stakeholders such as manufacturers, vendors, end users, and government organizations. There are no specific raw material suppliers for this market as raw materials are supplied to the manufacturers through a network of middlemen and authorized distributors.

This study identifies the prospective high growth market segments in the next two to five years to help stakeholders to prioritizing their efforts and investments. The stakeholders in the global geofoams market include geofoams manufacturers such as ACH Foam Technologies, LLC (U.S.), Carlisle Construction Materials (U.S.), Amvic Building Systems (Canada), Expol Ltd. (New Zealand), Groupe Legerlite, Inc. (Canada), and Pacific Allied Products Ltd. (U.S.), among others, and associations and organizations such as North American Geosynthetics Society, International Geosynthetics Society, and others.

Scope of the Report:
This research report categorizes the market for geofoams based on form, type, application, and region. It forecasts the revenue growth and analysis of trends in each of the submarkets.

By Application:
- Roadways
- Building & Construction

By Type:
- EPS geofoams
- XPS geofoams

By Region:
- Asia-Pacific
- North America
- Europe
- RoW

This report also includes profiles of leading manufacturers such as ACH Foam Technologies, LLC (U.S.), Carlisle Construction Materials (U.S.), Amvic Building Systems (Canada), Expol Ltd. (New Zealand), Groupe Legerlite, Inc. (Canada), and Pacific Allied Products Ltd. (U.S.), and others.
