Software & Services in Asia-Pacific

Description: Introduction

Software & Services in Asia-Pacific industry profile provides top-line qualitative and quantitative summary information including: market size (value 2011-15, and forecast to 2020). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market. Essential resource for top-line data and analysis covering the Asia-Pacific software & services market. Includes market size and segmentation data, textual and graphical analysis of market growth trends, leading companies and macroeconomic information.

Highlights

- The software and services market consists of two separate segments. The software segment includes systems and application software. The IT services segment includes IT outsourcing & processing, IT consulting & support, and cloud computing. Market value figures are assessed at manufacturer selling price (MSP), based on revenues accrued from software sales, licenses and IT services agreements. Any currency conversions used in the creation of this report have been calculated using constant 2014 annual average exchange rates.

- The Asia-Pacific software & services industry group had total revenues of $575.3bn in 2015, representing a compound annual growth rate (CAGR) of 10.7% between 2011 and 2015.

- The software segment was the industry group's most lucrative in 2015, with total revenues of $312.1bn, equivalent to 54.3% of the industry group's overall value.

- Cloud computing services are expected to achieve dynamic growth over the next few years as buyers expand the use of data centers and advanced analytics in order to manage the vast amounts of data being produced in the connected world.
