
Description: According to a new market report, the future of the thermoset resin market in the global adhesive industry looks promising, with opportunities in the automotive, construction, and wind energy applications. The thermoset resin market in global adhesive industry is forecast to grow at a CAGR of 6.4% from 2015 to 2020. The major drivers of growth for thermoset resin market in the global adhesive industry are replacement of traditional fasteners with adhesives as well as growth in key end-use applications, such as automotive, construction, aerospace and defense, and wind energy applications.

In this market, epoxy and polyurethane are the major chemical types used for thermoset resin in the global adhesive industry. The author predicts that the demand for epoxy in adhesive industry is likely to experience the highest growth in the forecast period supported by growing demand in end-use applications. On the basis of comprehensive research, the author forecasts that automotive market is expected to show above average growth during the forecast period.

Within the thermoset resin market in the global adhesive industry, the automotive industry is expected to remain as the largest market. The development of novel applications in the automotive, construction, aerospace and wind energy are expected to spur growth for these segments over the forecast period.

Asia Pacific is expected to remain the largest market due to growth in end use applications and increasing use of adhesives in place of traditional fasteners.

Europe, APAC, and ROW are expected to witness above average growth over the forecast period because of growth of the automotive and construction industries.

For market expansion, the report suggests new product development, where the unique characteristics of thermoset resin can be capitalized. The report further suggests the collaborative activities with customers to create win-win situations and development of unique solutions for the end user.

Emerging trends, which have a direct impact on the dynamics of the industry, include the emergence of bio-based products, development of hybrid technologies, development of thermoset resin with lower curing time, and increasing application of two part polyurethane resin. Dow Chemicals, BASF SE, Huntsman, Momentive, and Bayer AG are among the major players of thermoset resin market in global adhesive industry. Some companies are opting for expansion as a strategic initiative for driving growth.

The author has analyzed thermoset resin market in the global adhesive industry by chemical type, end use application, and region, and has come up with a comprehensive research report, “Growth Opportunities for Thermoset Resin Market in Global Adhesive Industry 2015-2020: Trend, Forecast, and Opportunity Analysis.” The report serves as a springboard for growth strategy, as it provides a comprehensive data and analysis on trends, key drivers, and directions. The study includes a forecast for the thermoset resin market in the global adhesive industry through 2020, segmented by chemical type, end use application, and region as follows:

By Chemical Type [volume (M lbs/Kilo ton) and $ Million shipments from 2009 to 2020):
- Epoxy
- Polyurethane
- Others

By end use application [volume (M lbs/Kilo ton) and $ Million shipment from 2009 to 2020):
- Epoxy
- Automotive
- Construction
- Aerospace and Defense
- Wind Energy
- Others
By region [volume (M lbs/Kilo ton) and $ Million shipment from 2009 to 2020]:

- Epoxy
- North America
- Europe
- Asia Pacific
- Rest of the World

This unique report will provide you with valuable information, insights, and tools needed to identify new growth opportunities and operate your business successfully in this market. This report will save hundreds of hours of your own personal research time and will significantly benefit you in expanding your business in this market. In today's stringent economy, you need every advantage that you can find.

To make business, investment, and strategic decisions, you need timely, useful information. This market report fulfills this core need and is an indispensable reference guide for multinational materials suppliers, product manufacturers, investors, executives, distributors, and many more that operate in this market.

Some of the features of "Growth Opportunities for Thermoset Resin Market in Global Adhesive Industry 2015-2020: Trends, Forecast, and Opportunity Analysis" include:

- Epoxy
- Market size estimates: Thermoset resin in global adhesive industry estimation in terms of volume (M lbs.) and value ($M) shipment.
- Trend and forecast analysis: Thermoset resin in global adhesive industry trend (2009-2014) and forecast (2015-2020) by region and by segment.
- Segmentation analysis: Thermoset resin in global adhesive industry size by chemical types such as epoxy, polyurethane and others both in terms of volume and value shipment.
- Thermoset resin in global adhesive industry size by end use application, such as automotive, construction, aerospace and defense, wind energy, and others.
- Regional analysis: Thermoset resin in global adhesive industry breakdown by key regions such as North America, Europe, Asia Pacific, and Rest of World.
- Growth opportunities: Analysis on growth opportunities in different applications, chemical type, and regions.
- Strategic analysis: This includes M&A, new product development, competitive landscape, and expansion strategies of thermoset resin suppliers in global adhesive industry.
- Analysis of competitive intensity of the industry based on Porter's Five Forces model.

Contents:

1. Executive Summary

2. Industry Background and Classifications
   2.1: Introduction
   2.2: Industry Classification
      2.2.1: Thermoset Resins in Global Adhesive Industry by Chemical Type
      2.2.2: Thermoset Resin in Global Adhesive Industry by End Use Application
   2.3: Advantages of Thermoset Resin Usage in Global Adhesive Industry
   2.4: Disadvantages of Thermoset Resin Usage in Global Adhesive Industry
   2.5: Supply Chain

3. Market Trend and Forecast Analysis
   3.1: Market Analysis 2014
      3.1.1: Thermoset Resin Market in Global Adhesive Industry by Value and Volume
   3.2: Market Trend: 2009-2014
      3.2.1: Macroeconomic Trend
      3.2.2: Thermoset Resin Market in Global Adhesive Industry Trend by Value and Volume
      3.2.3: Thermoset Resin Market in Global Adhesive Industry Trend by Chemical Type
      3.2.4: Thermoset Resin Market in Global Adhesive Industry Trend by End Use Application
      3.2.5: Regional Market Trend for Thermoset Resin in Global Adhesive Industry by Value and Volume
      3.2.6: Industry Drivers and Challenges
3.3: Market Forecast 2015-2020
  3.3.1: Macroeconomic Forecast
  3.3.2: Thermoset Resin Market in Global Adhesive Industry Forecast by Value and Volume
  3.3.3: Thermoset Resin Market in Global Adhesive Industry Forecast by Chemical Type
  3.3.4: Thermoset Resin Market in Global Adhesive Industry Forecast by End Use Application
  3.3.5: Regional Market Forecast for Thermoset Resins in Global Adhesive Industry by Value and Volume

4. Competitor Analysis
  4.1: Product Portfolio Analysis
  4.2: Market Share Analysis
  4.3: Geographical Reach
  4.4: Operational Integration
  4.5: Porter’s Five Forces Analysis

5. Growth Opportunity & Strategic Analysis
  5.1: Growth Opportunity Analysis
    5.1.1: Growth Opportunities for Thermoset Resin Market in Global Adhesive Industry by Chemical Type
    5.1.2: Growth Opportunities for Thermoset Resin Market in Global Adhesive Industry by End Use Application
  5.2: Emerging Trends in Thermoset Resin Market in Global Adhesive Industry
  5.3: Strategic Analysis
    5.3.1: New Product Development
    5.3.2: Expansion Strategy
    5.3.3: Product Market Growth Matrix for Thermoset Resin Market in Global Adhesive Industry
  5.4: Mergers and Acquisitions in Thermoset Resin Market in Global Adhesive Industry

6. Company Profiles of Leading Players
