Courtagen Life Sciences, Inc. - Product Pipeline Analysis, 2015 Update

Description: Summary

Courtagen Life Sciences, Inc. (Courtagen) is a medical device company that provides neurological treatment solutions. The company offers products such as neuro-development panels, lysosomal disorder panels, syndrome panels, comprehensive epilepsy panels, focus epilepsy panels, metabolism test equipments and mitochondrial panels. It also provides drug development services such as target discovery, validation, clinical development, clinical trials, decentralized test development, pre-clinical and clinical trial protocol and companion diagnostic services. The company's products are used in treatment of mitochondrial disorders, epilepsy and seizure disorders, and neuro-developmental disorders. It has its presence in the US and Bermuda. Courtagen is headquartered in Woburn, Massachusetts, the US.

This report is a source for data, analysis, and actionable intelligence on the company's portfolio of pipeline products. The report provides key information about the company, its major products and brands.

The report enhances decision making capabilities and help to create effective counter strategies to gain competitive advantage.

Scope:

- The report reviews detailed company profile with information on business description, key company facts, major products and services, key competitors, key employees, locations and subsidiaries and recent developments
- The report analyzes all pipeline products in development for the company Courtagen Life Sciences, Inc.
- The report provides pipeline analysis on all pipeline products of the company (by equipment type, by indication, by development stage, and by trial status)
- The report covers detailed information on each pipeline product with information on pipeline territory, stage of development, device class, regulatory path, indication(s), application(s) and estimated launch date
- The report also covers ongoing clinical trials (wherever applicable) with information on trial name, trial objective, sponsor, trial design, trial status and phase, estimated start and end date.

Reasons to Buy:

- Develop business strategies by understanding the trends and developments driving the medical devices pipeline and technology landscape
- Design and develop your product development, marketing and sales strategies by understanding the competitor portfolio
- To formulate effective Research & Development strategies
- Develop market-entry and market expansion strategies
- Exploit in-licensing and out-licensing opportunities by identifying products, most likely to ensure a robust return
- Plan mergers and acquisitions effectively by identifying key players of the most promising pipeline
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Develop competition strategies by identifying the status and likely launch of the competitors' pipeline products through review of the clinical trials, stage and of development, etc
- Identify, understand and capitalize the next high-value products that your competitor would add in its portfolio
