Aliphatic Hydrocarbon Solvents and Thinners Market by Type (Varnish Markets & Paints, Mineral Spirits and Others), Application (Paints & Coatings, Pharmaceutical, Adhesives, Printing Inks and Others) and Geography - Global Forecast to 2020

Description: The global aliphatic hydrocarbon solvents and thinners market is projected to reach USD 4.5 billion by 2020, at a CAGR of 1.4% between 2015 and 2020. Replacement of turpentine by mineral spirits, high growth in the paints and coatings and pharmaceutical industries and growing penetration in the Asia-Pacific region are the factors driving the growth of the global aliphatic hydrocarbon solvents and thinners market.

Paints & Coatings to be the largest application segment by 2020

The paints & coatings account for the largest share in the aliphatic hydrocarbon solvents and thinners market. Increasing number of automotive OEMs and growing machinery and appliances markets are driving the growth of this segment. Also, there is a growing demand for aliphatic hydrocarbon solvents and thinners in the paints & coatings application segment as they evaporate swiftly, thus increasing efficiency of the coating process.

Mineral Spirits continues to be the fastest growing type till 2020

Varnish makers & paints account for the largest share in the global aliphatic hydrocarbon solvents and thinners market but considering the cost and economic factors the mineral spirits continues to be the fastest growing type in the global market.

Globally, China dominates the Aliphatic Hydrocarbon Solvents and Thinners Market

Asia-Pacific is the global leader in the consumption of aliphatic hydrocarbon solvents and thinners and is expected to dominate during the forecast period. China and Korea are the major countries in this region, consuming more than 80% of the demand for aliphatic hydrocarbon solvents and thinners in this region.

Factors such as increase in total disposable income and rising number of vehicle production YoY are driving the growth of this market in this region.
