Global Hot Dog and Sausages Market 2015-2019

Description: Market outlook of the hot dog and sausages market

The market research analyst projects the hot dog and sausages market to reach a market value of around USD 76 billion by the end of 2019. The diversity of the product offerings and its association with various events have been driving the growth of this market. For instance, According to NHDSC, during occasions such as Memorial Day, Independence Day and Labor Day in the US, the consumption of hot dogs is more than 100 million.

The health risks associated with hot dogs and sausages is expected to deter the growth of the market during the forecast period. Most hot dogs and sausages contain a chemical compound named nitrite that are present in almost all the processed meats such as sausages, hot dogs, and bacon as well as poultry items. During the preparation of the meat, the nitrites combine with other chemicals resulting in N-nitroso compounds. On consumption, N-nitroso converts into nitrosamines within the human body which is harmful and leads to various types of cancer.
