Reversible Anticholinesterases -Pipeline Insights, 2016

Description:
The report, “Reversible Anticholinesterases-Pipeline Insights, 2016” provides in depth insights on the pipeline drugs and their development activities around the Reversible Anticholinesterases. The report covers the product profiles in various stages of development including Discovery, Pre-clinical, IND, Phase I, Phase II, Phase III and Preregistration. Report covers the product clinical trials information and other development activities including technology, licensing, collaborations, acquisitions, fundings, patent and USFDA & EMA designations details. The report also provides detailed information on the discontinued and dormant drugs that have gone inactive over the years for Reversible Anticholinesterases. The report also assesses the Reversible Anticholinesterases therapeutics by Monotherapy, Combination products, molecule type and Route of Administration.

Please note: This report requires certain updates. We have all the information available but require 3 business days to complete the process and ensure it is as up-to-date as possible. Certain sections in the report may be removed or altered based on the availability and relevance of data for the indicated indication.

Scope
- The report provides competitive pipeline landscape of Reversible Anticholinesterases
- The report provides pipeline products under drug profile section which includes product description, MOA, licensors & collaborators, development partner and chemical information
- Coverage of the Reversible Anticholinesterases pipeline on the basis of target, MOA, route of administration, technology involved and molecule type
- The report reviews key players involved in the therapeutics development for Reversible Anticholinesterases and also provide company profiling
- The report also gives the information of dormant and discontinued pipeline projects
- Pipeline products coverage based on various stages of development ranging from preregistration till discovery and undisclosed stages
- Provides pipeline assessment by monotherapy and combination therapy products, stage of development and molecule type

Reasons to buy
- Complete MOA intelligence and complete understanding over therapeutics development for Reversible Anticholinesterases
- Identify the relationship between the drugs and use it for target finding, drug repurposing, and precision medicine.
- Devise corrective measures for pipeline projects by understanding Reversible Anticholinesterases pipeline depth and focus of Indication therapeutics
- Developing strategic initiatives to support your drug development activities.
- Optimize your portfolio and keep you in touch with the rapidly changing pharmaceutical markets, and make the best decisions for your business.
- Develop and design in licensing and out licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
- Provides strategically significant competitor information, analysis, and insights to formulate effective R&D development strategies
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline
- Gaining a Full Picture of the Competitive Landscape for Evidencebased Decisions

Contents:
- Reversible Anticholinesterases Overview
- Reversible Anticholinesterases Disease Associated
- Reversible Anticholinesterases Pipeline Therapeutics
- Reversible Anticholinesterases Therapeutics under Development by Companies
- Reversible Anticholinesterases Filed and Phase III Products
- Comparative Analysis
- Reversible Anticholinesterases Phase II Products
- Comparative Analysis
- Reversible Anticholinesterases Phase I and IND Filed Products
- Comparative Analysis
- Reversible Anticholinesterases Discovery and Pre-Clinical Stage Products
- Comparative Analysis
- Drug Candidate Profiles
- Reversible Anticholinesterases – Therapeutics Assessment
  - Assessment by Monotherapy Products
  - Assessment by Combination Products
  - Assessment by Route of Administration
  - Assessment by Molecule Type
- Reversible Anticholinesterases – Discontinued Products
- Reversible Anticholinesterases – Dormant Products
- Companies Involved in Therapeutics Development for Reversible Anticholinesterases
- Appendix
- Methodology
- Contact Us
- Disclaimer

List of Tables
- Number of Products under Development for Reversible Anticholinesterases by Therapy Area, 2016
- Number of Products under Development for Reversible Anticholinesterases, 2016
- Number of Products under Development by Companies
- Comparative Analysis by Filed and Phase III Products, 2016
- Comparative Analysis Phase II Products, 2016
- Comparative Analysis Phase I and IND Filed Products, 2016
- Comparative Analysis Discovery and Pre-Clinical Stage Products, 2016
- Drug Candidates Profiles
- Reversible Anticholinesterases Assessment by Monotherapy Products
- Reversible Anticholinesterases Assessment by Combination Products
- Reversible Anticholinesterases Assessment by Route of Administration
- Reversible Anticholinesterases Assessment by Stage and Route of Administration
- Reversible Anticholinesterases Assessment by Molecule Type
- Reversible Anticholinesterases Assessment by Stage and Molecule Type
- Reversible Anticholinesterases Therapeutics – Discontinued Products
- Reversible Anticholinesterases Therapeutics – Dormant Products
- Products under Development by Companies, 2016

List of Figures
- Number of Products under Development for Reversible Anticholinesterases by Therapy Area, 2016
- Number of Products under Development for Reversible Anticholinesterases, 2016
- Filed and Phase III Products, 2016
- Phase II Products, 2016
- Phase I and INDFiled Products, 2016
- Discovery and Pre-Clinical Stage Products, 2016
- Reversible Anticholinesterases Assessment by Monotherapy Products
- Reversible Anticholinesterases Assessment by Combination Products
- Reversible Anticholinesterases Assessment by Route of Administration
- Reversible Anticholinesterases Assessment by Stage and Route of Administration
- Reversible Anticholinesterases Assessment by Molecule Type
- Reversible Anticholinesterases Assessment by Stage and Molecule Type

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card:
You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check:
Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer:
Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
