Global Metal Forming Machine Tools Market 2016-2020

Description: Market outlook of the global metal forming machine tools market

The research analyst predicts the global metal forming machine tools market to grow moderately at a CAGR of 4% during the forecast period. Manufacturing industries are particularly dependent on metal forming machine tools for their core activities. Industrial activity in APAC countries, especially China, India, and Japan have witnessed a significant rise in manufacturing and construction activities and it is expected to be a driving force for the growth of this market until 2019.

As per the forecast, this market is likely to witness a growing demand for CNC metal forming machines tools. Analysts predict, the need for automation in the manufacturing of metal forming machine tools will accelerate the shift from conventional, manually controlled machines to CNC machines that operate using programmed commands and computers.

Segmentation and analysis of the global metal forming machine tools market by application

Automotive industry
General machinery
Transport machinery
Precision engineering
Building and construction
Others

Metal forming machine tools are essential for manufacturing various metal components in the automotive industry. The automotive industry led this market in 2015 with an overall share of close to 44%. Growing production of automobiles in countries such as the US, China, Japan, and Germany has surged the need for metal forming machine tools.

Geographical segmentation and analysis of the global metal forming machine tools market

Americas
APAC
EMEA

APAC countries such as China, Japan, Republic of Korea, India, Singapore, and Taiwan emerged as the key revenue contributors to the metal forming machine tools market in 2015.

Competitive landscape and key vendors

The global metal forming machine tool market is highly fragmented, with the presence of several vendors worldwide. The market is characterized by the presence of well-diversified international, regional, and local vendors.

The leading vendors in the market are -

DMG Mori Seiki Aktiengesellschaft
Fagor Arrasate
Magna International
Schuler
Weiss-Aug Company

Other prominent vendors in the market include Amada, Byjc-okuma (Beijing), Doosan Infracore, Fair Friend Group, FANUC, GF Machining Solutions, Haas Automation, Hardinge, JTEKT, and Kennametal.

Key questions answered in the report include
- What will the market size and the growth rate be in 2020?
What are the key factors driving the global metal forming machine tools market?
What are the key Market trends impacting the growth of the global metal forming machine tools market?
What are the challenges to market growth?
Who are the key vendors in this market space?
What are the market opportunities and threats faced by the vendors in the global metal forming machine tools market?
Trending factors influencing the market shares of the Americas, APAC, and EMEA.
What are the key outcomes of the five forces analysis of the global metal forming machine tools market?

PART 06: Market segmentation by application
- Global metal forming machine tools market by application 2015-2020
- Global metal forming machine tools market by automotive industry
- Global metal forming machine tools market by general machinery
- Global metal forming machine tools market by transport machinery
- Global metal forming machine tools market by precision engineering
- Global metal forming machine tools market by building and construction

PART 07: Geographical segmentation
- Global metal forming machine tools by geography
- Metal forming machine tools market in Americas
- Metal forming machine tools market in EMEA
- Metal forming machine tools market in APAC

PART 08: Key leading countries
- China
- US
- Germany
- Japan

PART 09: Market drivers
- Growth in automotive industry
- Growing aerospace and aviation industry
- High demand for CNC metal forming machine tools
- Government initiatives

PART 10: Impact of drivers

PART 11: Market challenges
- Capital-intensive market
- Increased use of plastic and fiber
- Availability of low-cost metal forming machine tools

PART 12: Impact of drivers and challenges

PART 13: Market trends
- Development of user-friendly metal forming machine tool interface
- Growing initiatives by associations and organizations
- Development of monitoring solutions

PART 14: Vendor landscape
- Competitive scenario
- Other prominent vendors

PART 15: Key vendor analysis
- DMG Mori
- Fagor Arrasate
- Magna International
- Schuler
- Weiss-Aug
