Global Retail IT Spending market 2016-2020

Description: Market outlook of the retail IT spending market

The research analyst predicts the global retail IT spending market to grow steadily at a CAGR of close to 4% during the forecast period. Increased need to find customer insights from a large pool of structured and unstructured data is a major driver for investment by retailers on big data analytics technology.

This research report also covers the role of SMAC technology in shaping the growth of the market. Retailers focus on right product assortment for the right stores, depending on the store’s attributes, local customer demand, and product preference. Technavio expects analytics platforms to quickly gain popularity among CMOs as a secure and easy to use option. With this, IT spending in retail is expected to significantly improve customer satisfaction in the upcoming four years.
