Armor Materials Market by Type (Metals & Alloy, Ceramic & Composite, Para-Aramid Fibers, UHMWPE, Fiberglas), by Application (Vehicle, Aerospace, Body, Civil, Marine) and by Region - Global Trends & Forecast to 2020

Description:
“Armor materials market to reach USD ~10.54 billion by 2020”
The global armor materials market is projected to reach USD ~10.5 billion by 2020 at a CAGR of 6.8% between 2015 and 2020. The growth is attributed to rising security concerns, increasing demand for homeland security, and development of advanced armor materials suitable for urban warfare arenas, wherein modern weapons, such as Improvised explosive devices (IEDs) and Rocket Propelled Grenades (RPGs) are used.

“Vehicle armor to dominate the market among all applications”
Vehicle armor has been projected to control the major share of the armor materials market by 2020. Need to reduce the weight of armored vehicles to increase effectiveness and provide protection from advanced weapons and ammunitions are expected to be the major driver for the vehicle armor segment during the forecast period.

“Asia-Pacific to dominate the armor materials market”
Asia-Pacific has been estimated to dominate the armor materials market by 2020. Increasing demand for armor materials in the region can be attributed to military modernization programs by countries, such as China and India. The increasing political tensions between various countries in the region, as well as internal conflicts, are also driving the growth of the market in the region.
