Pharmaceutical Capex Project Reporting Package - Netherlands

Description: This Pharmaceutical capex project reporting extends throughout the Netherlands and covers all aspects of capital investment in product development and manufacturing across the industry, including primary, secondary, biotech, OTC, medical devices and personal care products.

Projects included within the package are all scheduled to enter the Procurement Phase during 2016 and range from plant upgrades and modifications to expansions and complete new builds, all with a breadth of scope to include a wide range of process equipment and associated services. The package's focus on the processing aspects of projects also includes the production environment and ancillary services such as cleanrooms, HVAC, utilities, effluent treatment and laboratories.

One of the most important features of this project reporting is the inclusion of key decision makers which includes contacts with roles encompassing:

- External consultants
- Technology providers
- Design
- Engineering
- EPC contractors
- Equipment specification & selection
- Procurement
- Planning
- Project management
- Operations management

Within this package there are 71 project reports which include:

- Capital Expenditure > €1m
- Scheduled to enter procurement phase during 2016
- Project Types:
  - New Builds
  - Expansions
