Seamless Copper Tubes Market in MENA 2015-2019

Description: About Seamless Copper Tubes

The seamless copper tubes market in MENA is highly dependent on imports from suppliers in China, the Far East (Malaysia, Thailand, and Japan), the US, and Europe as there are no major local suppliers apart from Iran.

Qaem Copper in Iran is a major supplier of seamless copper tubes in the region, mainly catering to the local demand in Iran and exporting in smaller quantities to other Middle Eastern countries. LWC grooved and plain coils are mostly used in the ACR segment, whereas pancake coils and straight-length seamless copper tubes are mainly used in industrial (heat exchangers), plumbing, electrical and other end-user segments in MENA countries.

The analysts forecast the seamless copper tubes market in MENA to grow at a CAGR of 8.52% during the period 2015-2019.
