
Description: Provides a comprehensive overview of wireless computing in medicine, with technological, medical, and legal advances

This book brings together the latest work of leading scientists in the disciplines of Computing, Medicine, and Law, in the field of Wireless Health. The book is organized into three main sections. The first section discusses the use of distributed computing in medicine. It concentrates on methods for treating chronic diseases and cognitive disabilities like Alzheimer’s, Autism, etc. It also discusses how to improve portability and accuracy of monitoring instruments and reduce the redundancy of data. It emphasizes the privacy and security of using such devices. The role of mobile sensing, wireless power and Markov decision process in distributed computing is also examined. The second section covers nanomedicine and discusses how the drug delivery strategies for chronic diseases can be efficiently improved by Nanotechnology enabled materials and devices such as MENs and Nanorobots. The authors will also explain how to use DNA computation in medicine, model brain disorders and detect bio–markers using nanotechnology. The third section will focus on the legal and privacy issues and how to implement these technologies in a way that is safe and ethical.

- Defines the technologies of distributed wireless health, from software that runs cloud computing data centers, to the technologies that allow new sensors to work
- Explains the applications of nanotechnologies to prevent, diagnose, and cure disease
- Includes case studies on how the technologies covered in the book are being implemented in the medical field, through both the creation of new medical applications and their integration into current systems
- Discusses pervasive computing’s organizational benefits to hospitals and health care organizations, and their ethical and legal challenges

Wireless Computing in Medicine: From Nano to Cloud with Its Ethical and Legal Implications is written as a reference for computer engineers working in wireless computing, as well as medical and legal professionals. The book will also serve students in the fields of advanced computing, nanomedicine, health informatics, and technology law.

Dr. Mary Mehrnoosh Eshaghi–Wilner, Esq. is an interdisciplinary scientist and patent attorney. She received a B.S. degree in Biomedical and Electrical Engineering (1985), M.S. degree in Computer Engineering (1985), Engineers degree in Electrical Engineering (1988), and Ph.D. in Computer Engineering (1988), all from the University of Southern California (USC). She holds a J.D. degree from the Northwestern California School of Law, and has graduated Cum Laude with an LL.M. degree from the Thomas Jefferson School of Law. Professor Eshaghi–Wilner is currently a Professor of Engineering Practice at the Electrical Engineering Department of USC. She is best known for her work in the areas of Optical Computing, Heterogeneous Computing, and Nanocomputing. Her current research involves the applications and implications of these and other emerging technologies in medicine and law. Professor Eshaghi–Wilner has founded and/or chaired numerous IEEE conferences and organizations, and serves on the editorial board of several journals. She is the recipient of several prestigious awards, and has authored and/or edited hundreds of publications, including three books.

Contents: Contributors xiii
Foreword xvii
Preface xix
PART I INTRODUCTION 1
1 Introduction to Wireless Computing in Medicine 3
Amber Bhargava, Mary Mehrnoosh Eshaghi–Wilner, Arushi Gupta, Alekhya Sai Nuduru Pati, Kodiak Ravicz, and Pujal Trivedi
4.1 Introduction, 79
4.2 System Design, 81
4.3 Body Sensor Network, 82
4.4 Portable Sensors, 84
4.5 Wearable Sensors, 88
4.6 Implantable Sensors, 94
4.7 Wireless Communication, 95
4.8 Mobile Base Unit, 97
4.9 Conclusion and Challenges, 98
Acknowledgment, 99
References, 99

5 Collaborative Opportunistic Sensing of Human Behavior with Mobile Phones 107
Luis A. Castro, Jessica Beltran–Marquez, Jesus Favela, Edgar Chavez, Moises Perez, Marcela Rodriguez, Rene Navarro, and Eduardo Quintana
5.1 Health and Mobile Sensing, 107
5.2 The InCense Sensing Toolkit, 110
5.3 Sensing Campaign 1: Detecting Behaviors Associated with the Frailty Syndrome Among Older Adults, 119
5.4 Sensing Campaign 2: Detecting Problematic Behaviors among Elders with Dementia, 123
5.5 Discussion, 131
5.6 Conclusions and Future Work, 132
References, 133

6 Pervasive Computing to Support Individuals with Cognitive Disabilities 137
Monica Tentori, José Mercado, Franceli L. Cibrian, and Lizbeth Escobedo
6.1 Introduction, 137
6.2 Wearable and Mobile Sensing Platforms to Ease the Recording of Data Relevant to Clinical Case Assessment, 144
6.3 Augmented Reality and Mobile and Tangible Computing to Support Cognition, 151
6.4 Serious Games and Exergames to Support Motor Impairments, 158
6.5 Conclusions, 168
Acknowledgments, 172
References, 172

Nikita Ahuja, Mary Mehrnoosh Eshaghian–Wilner, Zhuochen Ge, Renjun Liu, Alekhya Sai Nuduru Pati, Kodiak Ravicz, Mike Schlesinger, Shu Han Wu, and Kai Xie
7.1 Introduction, 187
Acknowledgments, 596
References, 596

PART V CONCLUSION 601

21 Concluding Remarks 603
Zhaoqi Chen, Mary Mehrnoosh Eshaghian-Wilner, Kalyani Gonde, Kodiak Ravicz, Rakshith Saligram and Mike Schlesinger

21.1 Wireless Computing in Health Care, 603

21.2 Nanomedicine, 606

21.3 Ethical, Privacy, and Intellectual Property Issues of Nanomedicine and Wireless Computing, 609

21.4 Conclusions, 610
Acknowledgments, 610
References, 610

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB9853308331083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
