A Field Guide to the Carboniferous Sediments of the Shannon Basin, Western Ireland. International Association Of Sedimentologists Series

Description: The Carboniferous Shannon Basin of Western Ireland has become one of the most visited field areas in the world. It provides an ideal opportunity for examining a wide range of ancient sedimentary environments, including carbonate shelf, reefs and mud mounds, black shales and phosphates, and a spectrum of deep sea, shallow marine, fluvio-deltaic and alluvial siliciclastic sediments. The area boasts extensive outcrops and some of the most renowned sections through turbidites, large-scale soft sediment deformation features and sediments that display a response to tectonic and sea-level controls.

This field guide provides the first synthesis of the principal localities in this area of Western Ireland, and presents an easily accessible handbook that will guide the reader to, and within, a wide range of sedimentary facies, allowing an understanding of the evolving nature of the fill of this Carboniferous basin and the context of its sedimentary and tectonic evolution. The guide summarizes recent and new work in the area by a range of authors and outlines issues of current debate concerning the Shannon Basin and its palaeoenvironmental interpretation. The field guide will find extensive use in teaching and research by academic researchers, professional and amateur geologists, as well as by applied geologists, geophysicists and reservoir engineers who use these outcrops as analogues for subsurface reservoirs in many areas of the world.

About the website

Chapter 1. Introduction to the Field Guide
Jim Best & Paul B. Wignall

Chapter 2. The Shannon Basin: structural setting and evolution
John Graham

Chapter 3. Basin Models
Paul B. Wignall & Jim Best

Chapter 4. Lower Carboniferous of the Shannon Basin region
Ian D. Somerville

Chapter 5. Viséan coral biostromes and karsts of the Burren
Ian D. Somerville

Chapter 6. The Clare Shales
Paul B. Wignall, Ian D. Somerville & Karen Braithwaite

Chapter 7. Architecture of a distributive submarine fan: The Ross Sandstone Formation
David Pyles & Lorna J. Strachan

Chapter 8. Evolving depocentre and slope: the Gull Island Formation
Lorna J. Strachan & David Pyles

Chapter 9. The Tullig and Kilkee Cyclothsems in southern County Clare
Jim Best, Paul B. Wignall, Eleanor J. Stirling, Eric Obrock & Alex Bryk

Chapter 10. The Tullig and Kilkee Cyclothsems of Northern County Clare
Paul B. Wignall, Jim Best, Jeff Peakall & Jessica Ross
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
