Pressure Monitoring Market Product (Device (Blood Pressure, Intracranial Pressure, Intraocular Pressure), Accessory), Procedure (Invasive), Application (Respiratory, Glaucoma, Dialysis), End User (Hospital, ASC, Diagnostic) - Forecast to 2020

Description: Factors such as rising prevalence of chronic and acute diseases increase in the aging population, new product launches, and technological advancements are driving the growth of this market. On the other hand, high cost of technological advancements, lack of trained professionals, accuracy of the devices and short shelf life is hindering the growth of this market.

North America dominates the market, accounting for a major market share in 2014. Factors such as increasing prevalence of chronic and acute diseases such as hypertension and cardiac diseases, technological advancements, acceptability of the non-invasive pressure monitors among the patients, and existence of key market players in North America are driving the growth of this market.

Prominent players in the market include Philips Healthcare (The Netherlands), GE Healthcare (U.K.), Welch Allyn, Inc. (U.S.), Medtronic (U.S.), and Drägerwerk AG & Co. KGaA (Germany).
