Global Automotive Adhesive and Sealant Market Size, Share, Development, Growth and Demand Forecast to 2020

Description:

Global Automotive Adhesive and Sealant Market Size, Share, Development, Growth and Demand Forecast to 2020 - Industry Insights by Application (BIW, UTH and Power Train, Paint Shop, Assembly), Type (Epoxy, Acrylics, Polyurethanes, Rubber, PVC, Silicones, Hot Melts)

Automotive adhesives and sealants are the products, which help the automotive original equipment manufacturers (OEMs) bond different substrate of metal, hence eliminating the need for welding and mechanical rivets. Adhesives and sealants are new in the automotive industry, with welding and mechanical riveting being the major technologies utilized currently. However, automotive adhesives and sealants are making strong inroads in the industry, as the OEMs identify the benefits of materials and related cost savings, which can be achieved by using the same. The current levels of usage of these materials range from 30 pounds to 40 pounds per vehicle (13.6 kg to 18.0 kg).

The automotive adhesive & sealant market is growing at a significant rate, due to the fuel economy regulations, vehicles safety standards and regulations, and increasing focus on the usage of lightweight materials. The use of lightweight materials within the automotive industry is a practice to improve fuel efficiency. Lightweight materials being used by the automotive industry include plastic, composites and aluminum, which are replacing the use of steel by automotive manufacturers. However, the focus on increasing fuel efficiency is not affecting the prime motive of automotive manufacturers i.e. safety. Research and development is going on to develop new technologies and tools, which can be used to design vehicles having better fuel efficiency and safety. Unlike steel or cast iron components, lightweight materials can't be welded or bolted to keep them together. In order to maintain the integrity of lightweight vehicles, the usage of adhesive and sealants is getting increased by automotive manufacturers across the globe. F150 truck by FORD is an example of lightweight vehicle. The increasing production of lightweight vehicles is anticipated to boost the growth of the global automotive adhesive and sealant market during the forecast period.

Electric vehicles emerge as an upcoming demand segment for adhesive and sealants. The global electric vehicles market has exhibited tremendous growth, especially post 2011. Various industry level initiatives are aiming to ensure the penetration of 20 million electric vehicles on road by 2020 i.e. from a share of less than 0.02% in 2012 to a share of 2% by 2020. Various investments are being directed in R&D of electric vehicles to make them competitive and acceptable in the market. Though the investments are reaping benefits to a large extent, but still there lies a lot of scope in the improvement of structural integrity of vehicles.

The use of automotive adhesives and sealants in electric vehicles is low due to less engine related assemblies, but as the focus on increasing structural integrity picks up the pace along with reducing the overall weight, the demand for adhesives in such vehicles is expected to pick up. With high weight of batteries in such vehicles, it becomes even more important for the OEMs to reduce the overall weight of the car by substituting traditional materials like steel with light weight substrates, such as aluminum, and carbon fiber. Such substrates cannot be welded together, and hence, rely on automotive adhesives and sealants for proper bond. Therefore, the increased focus on enhancing design and integrity, along with the highly growing demand of electric vehicles could create a lot of growth opportunities for automotive adhesive manufacturers.

In 2014, the global hot melts segment held the largest share in the type category of the global market; and it is expected to grow with a CAGR of 10.5% during the forecast period in terms of value. Based on application, the BIW segment held the largest market of 398.0 Kilo Tons (by volume) in 2014, and it is expected to reach 584.9 Kilo Tons by 2020, growing with a CAGR of 6.6% during the period 2015-2020.

The global automotive adhesive & sealants market was valued at $4,879.3 million in 2014, and it is expected to grow with a CAGR of 8.8% during 2015 - 2020. Asia-Pacific is the largest market of automotive adhesives and sealants in the world, with 530.0 KT of adhesives and sealants consumed in 2014. The consumption of automotive adhesives and sealants volume per vehicle is estimated to be 12.0 kg, which is lowest globally. Although it consumes the lowest volume of adhesives and sealants per vehicle, it accounts for more than 50% of the total vehicles manufactured globally, thus leading the overall adhesive & sealant market.
Europe is the second largest market in the global automotive adhesive & sealant market. Europe is the leading region, which is driving innovation in the usage of substrates, other than iron and steel in vehicles. All major European OEMs in the region, such as BMW and Volkswagen are incorporating more different substrates into their vehicles, hence, requiring more adhesives and sealants volume. For instance, i3 and i5, recent offerings from BMW utilizes carbon fiber for its body, hence requiring adhesives for bonding needs.

The key companies operating in the global automotive adhesive & sealants market include Dow Chemical Co., Henkel AG & Co. KGaA, 3M Company, Kommerling, PPG Industries, Inc., Permatex, Krayden, Inc., and Sika AG.

This research offers actual historical market size for the year 2014 and forecast for the period 2015 - 2020, of the global automotive adhesive & sealant market in the U.S. dollars and Kilo Tons.

Global Automotive Adhesive & Sealant Market
- By Application - BIW, UTH and Power Train, Paint Shop, Assembly
- By Type - Epoxy, Acrylics, Polyurethanes, Rubber, PVC, Silicones, Hot Melts
- By Region - North America, Europe, Asia-Pacific, South America and Middle East & Africa

Global Automotive Adhesive & Sealant Market, by Geography

North America Automotive Adhesive & Sealant Market
- North America Automotive Adhesive & Sealant Market Breakdown by Country - The U.S., Canada, Mexico
- North America Automotive Adhesive & Sealant Market Breakdown by Application
- North America Automotive Adhesive & Sealant Market Breakdown by Type

Europe Automotive Adhesive & Sealant Market
- Europe Automotive Adhesive & Sealant Market Breakdown by Country - Germany, Spain, France, The U.K., Russia, Turkey, Czech Republic, Others
- Europe Automotive Adhesive & Sealant Market Breakdown by Application
- Europe Automotive Adhesive & Sealant Market Breakdown by Type

Asia-Pacific Automotive Adhesive & Sealant Market
- Asia-Pacific Automotive Adhesive & Sealant Market Breakdown by Country - China, Japan, South Korea, India, Thailand, Indonesia, Others
- Asia-Pacific Automotive Adhesive & Sealant Market Breakdown by Application
- Asia-Pacific Automotive Adhesive & Sealant Market Breakdown by Type

South America Automotive Adhesive & Sealant Market
- South America Automotive Adhesive & Sealant Market Breakdown by Country - Brazil, Argentina, Others
- South America Automotive Adhesive & Sealant Market Breakdown by Application
- South America Automotive Adhesive & Sealant Market Breakdown by Type

Middle East & Africa Automotive Adhesive & Sealant Market
- Middle East & Africa Automotive Adhesive & Sealant Market Breakdown by Country - South Africa, Others
- Middle East & Africa Automotive Adhesive & Sealant Market Breakdown by Application
- Middle East & Africa Automotive Adhesive & Sealant Market Breakdown by Type

Contents:
1. Research Scope & Methodology
   1.1 Market Definition
   1.2 Market Scope
   1.2.1 Market breakdown by application
   1.2.2 Market breakdown by type
   1.2.3 Market breakdown by geography
   1.3 Research Methodology and Sources
2. Executive Summary
2.1 Key Findings

3. Market Outlook
3.1 Introduction
3.1.1 Overview of automotive adhesives and sealant market
3.1.1.1 Body in white
3.1.1.2 UTH (under the hood) and power train
3.1.1.3 Paint shop
3.1.1.4 Assembly
3.1.2 Value chain analysis
3.2 Trends in the Automotive Adhesive and Sealant Market
3.2.1 Potential for OEMs to reduce their operating costs/cost savings, due to replacement of mechanical welds by adhesives and sealants
3.2.2 Electric vehicles emerge as an upcoming demand segment for adhesive and sealants
3.3 Factors Driving the Market and its Impact on Market Forecast
3.3.1 Increasing focus on the usage of lightweight materials
3.3.2 Vehicles safety standards and regulations
3.3.3 Asia-Pacific emerging as the global supply demand centre/emerging automotive markets boosting passenger cars and LCVs demand
3.3.4 Fuel economy regulations
3.4 Factors Hindering the Market and its Impact on Market Forecast
3.4.1 Volatility in the oil prices
3.4.2 Low awareness levels regarding the benefits of adhesives and sealants

4.1 Global Automotive Adhesive & Sealant Market Breakdown by Type
4.1.1 Epoxy
4.1.2 Acrylics
4.1.3 Polyurethanes
4.1.4 Rubber
4.1.5 PVC
4.1.6 Silicones
4.1.7 Hot Melts
4.2 Global Automotive Adhesive & Sealant Market Breakdown by Application
4.2.1 BIW
4.2.2 UTH and Power Train
4.2.3 Paint Shop
4.2.4 Assembly
4.3 Global Automotive Adhesive & Sealant Market Breakdown by Geography

5. Global Automotive Adhesive & Sealant Market Breakdown by Geography
5.1 North America Automotive Adhesive & Sealant Market
5.1.1 North America automotive adhesive & sealant market breakdown by country
5.1.2 North America automotive adhesive & sealant market breakdown by type
5.1.3 North America automotive adhesive & sealant market breakdown by application
5.2 Europe Automotive Adhesive & Sealant Market
5.2.1 Europe automotive adhesives & sealant market breakdown by country
5.2.2 Europe automotive adhesive & sealant market breakdown by type
5.2.3 Europe automotive adhesive & sealant market breakdown by application
5.3 Asia-Pacific Automotive Adhesive & Sealant Market
5.3.1 Asia-Pacific automotive adhesive & sealant market breakdown by country
5.3.2 Asia-Pacific automotive adhesive & sealant market breakdown by type
5.3.3 Asia-Pacific automotive adhesive & sealant market breakdown by application
5.4 South America Automotive Adhesive & Sealant Market
5.4.1 South America automotive adhesive & sealant market breakdown by country
5.4.2 South America automotive adhesive & sealant market breakdown by type
5.4.3 South America automotive adhesive & sealant market breakdown by application
5.5 Middle East & Africa Automotive Adhesive & Sealant Market
5.5.1 Middle East & Africa automotive adhesive & sealant market breakdown by country
5.5.2 Middle East & Africa automotive adhesive & sealant market breakdown by type
5.5.3 Middle East & Africa automotive adhesive & sealant market breakdown by application
6. Competitive Landscape & Product Positioning
   6.1 Porter's Five Forces of Competitive Position Analysis
      6.1.1 Bargaining power of buyers
      6.1.2 Bargaining power of suppliers
      6.1.3 Threat of new entrants
      6.1.4 Intensity of rivalry
      6.1.5 Threat of substitutes

7. Company Profiles and Strategic Developments
   7.1 Key Company Profiles
      7.1.1 Dow Chemical Co.
      7.1.1.1 Business overview
      7.1.1.2 Product and service offerings
      7.1.2 Henkel AG & Co. KGaA
      7.1.2.1 Business overview
      7.1.2.2 Product and service offerings
      7.1.3 3M Company
      7.1.3.1 Business overview
      7.1.3.2 Product and service offerings
      7.1.4 Kommerling
      7.1.4.1 Business overview
      7.1.4.2 Product and service offerings
      7.1.5 PPG Industries Inc.
      7.1.5.1 Business overview
      7.1.5.2 Product and service offerings
      7.1.6 Permatex
      7.1.6.1 Business overview
      7.1.6.2 Product and service offerings
      7.1.7 Krayden, Inc.
      7.1.7.1 Business overview
      7.1.7.2 Product and service offerings
      7.1.8 Sika AG
      7.1.8.1 Business overview
      7.1.8.2 Product and service offerings
   7.2 Strategic Developments in the Global Automotive Adhesives and Sealants Market
