Global Invisible Braces Market: Trends, Opportunities and Forecasts (2016-2021)

Description:

Improved technological advancement leading to growing demand for orthodontic treatments coupled with growing awareness among the population due to aesthetic factors has resulted in the growth of invisible braces market.

Global invisible braces market is forecast to grow at a CAGR of 12.16% during 2016 - 2021F, driven by increasing demand for invisible braces among the population given the aesthetic factors associated with the same and the growing technological innovation.

Rising disposable incomes has resulted in increasing per capita healthcare expenditure which has further led to growing focus towards healthcare, hence, building the need for invisible braces specifically among the adult population.

While the market has witnessed strong foothold in the regions of North America and Europe, rapid growth for invisible braces is expected to be fuelled by the emerging nations in Asia Pacific and Latin America through India and Brazil whereas rising dental tourism in Mexico and Thailand will continue to contribute towards the invisible braces market.
