Kaolin Market Analysis By Application (Paper, Ceramics, Paint, Fiberglass and Rubber) And Segment Forecasts To 2020

Description: Global Kaolin Market is expected to reach USD 5.88 billion by 2020. Growth of construction sector on account of industrialization in emerging economies including China, Brazil, India and Russia is expected to drive kaolin market demand. Kaolin is used in ceramics and concrete to increase whiteness and brightness of the base material. Growing focus on superior aesthetics would drive demand for ceramic tiles and sanitary ware resulting in increased kaolin demand over the forecast period. Moreover, increasing demand for paper packaging is anticipated to drive kaolin demand, as the mineral enhances durability and reinforcement properties of the base material.

Paper was the largest application segment for the kaolin market accounting for over 40% of volume share in 2013. Ceramics is expected to be the fastest growing application segment at a CAGR of 4.4% from 2014 to 2020.

Further key findings from the study suggest:

- Rising concern regarding environment protection is expected to drive demand for eco-friendly packaging materials such as paper, which would aid kaolin market growth over the forecast period.

- Asia Pacific was the largest kaolin market with revenue exceeding USD 1.5 billion in 2013. Construction industry growth in India, China and Indonesia is expected to have a positive impact on the market.

- Growing application scope of kaolin in non-traditional applications such as rubber, plastics, and pharmaceuticals is anticipated to open new opportunities for the market.

- Global kaolin market is fragmented in nature owing to the presence of numerous manufacturers across the world. Large kaolin deposits are found in the U.S. resulting in high market concentration in the region. Key market participants include Thiele Kaolin, Imerys SA, I-Minerals Inc., Quarzwerke GmbH, SCR-Sibelco N.V. and KaMin LLC. Kaolin market is characterized by frequent merger & acquisition activities. For instance, in May 2014, Imerys S.A. entered into a strategic alliance with Nedmag to cater to the pulp & paper industry of Europe. In 2013, Quarzwerke GmbH bought a major stake in Kaolin AD; a Bulgaria based mineral extracting and processing company.
