Executive Summary

Online classifieds market has shown increasing trend over the past few years. The growth in the market is due to increased penetration rate of mobile and internet, advancement of technologies, consumer preference towards digital media and popularity of social network sites among the population globally.

The major factors driving the growth of online classifieds markets are increased use of smartphones. Among the digital devices, mobile devices have taken over as the preferred medium of consuming online media. The smartphone market has seen an unprecedented growth in the last 5 years. Mobile advertising is the key driver of growth for digital advertising market. Growth of E-Commerce market, rapidly increasing internet users and increasing user base in social networking site are other drivers that contribute to the growth of the market.

But, digital advertising market still has to face lot of challenges that hinder the growth of the market in coming years. The challenges before the market are advertisement fraud, lack of customer privacy, operational issues that need to be addressed as more advertising moves through programmatic channels etc. One more challenge before the market is weak economies. People are spending about 30 percent of their media consumption time online, only about 10 percent of media budgets are dedicated to online.
