China Haisum Engineering Co., Ltd. - Company Capsule

Description: The "China Haisum Engineering Co., Ltd. - Company Capsule" contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, financial ratios, key competitors, financial analysis as well as key employees.

Summary:

This report is a crucial resource for industry executives and anyone looking to access key information about "China Haisum Engineering Co., Ltd."

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. The report strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

Scope:

- Identifies crucial company information about "China Haisum Engineering Co., Ltd." along with major products and services for business intelligence requirements.
- Provides key ratios on company's financial performance.
- Identifies key employees to assist with key business decisions.
- Provides annual and interim financial ratios.

Reasons To Buy:

- Enhance your understanding of "China Haisum Engineering Co., Ltd."
- Increase business/sales activities by understanding customers' businesses better.
- Recognize potential partnerships and suppliers.
- Qualify prospective partners, affiliates or suppliers.
- Acquire up-to-date company information and an understanding of the company's financial health.

Key Highlights:

China Haisum Engineering Co., Ltd. (Haisum) is a provider of construction design and engineering services. It primarily offers design, engineering, procurement and construction engineering, consultation and supervision services. The company offers its services under four categories: general contract, engineering design, engineering consultation and engineering supervision. The company through general contract service category provides various services such as design, reconnaissance, procurement, construction, test running and others which are needed for the whole course contract. Its engineering design services include planning, scheme design, engineering budget compiling, construction drawing design and finished drawing compiling for various projects. Thorough engineering consultation service category, it offers engineering project consultation, design document review, engineering evaluation consultation and energy-saving assessment services.
