Global Market for Flame Retardant Chemicals Segmented by Application, Composition and Geography (2015-2020)

Description:
Flame-retardants are compounds added to or applied in surface treatment of potentially flammable materials, including textiles and plastics. They inhibit, delay production of, or suppress flames to curb the spreading of fire. The global market for flame retardant chemicals is expected to grow at a healthy pace of 5.9% from $7.1 billion in 2013 to over $10 billion during the forecast period. With 47% of the global market share, Asia-Pacific is the largest market for flame-retardants and it is also the fastest growing, principally driven by China. The second largest market is North America followed closely by Europe.

Flame-retardants can be divided by their end use application in the sectors: electronic & electrical appliances, construction, wire & cable, automotives, textiles and others. The largest two sectors are construction and electronic and electrical appliances, together occupying about 46% of the total market. Electronic & electrical appliances along with wire & cable are the fastest growing markets; this growth can be credited to the rise in the demand for consumer electronics goods. This rise in demand helps the flame-retardants market by upping the CAGR by 8% in the forecasted period. The automotive flame-retardant market is expected to grow driven by the growth of automotive industry in Asia-Pacific. Increasing economic prosperity worldwide, especially in emerging economies, has helped in shifting the preference towards low risk fire resistant materials. The demand for flame-retardants is in correspondence to GDP growth. A high GDP growth correlates to high construction activities and rise in the standard of living. The emergence of stringent fire safety standards and legislations across Europe, North America and the BRICS countries acts as a growth driver for the use of flame-retardants.

By composition, the key flame-retardants in the Asia Pacific market are- aluminium hydroxide, halogenated compounds, organophosphorus, nitrogen based compounds, inorganic compounds and organic compounds like nanocomposites and expandable graphite. Aluminium hydroxide is the most widely used and a fast growing sector due to its low adverse health effects, effectiveness as a smoke suppressant. Halogenated flame-retardants, which occupy about 30% of the global market share, are facing reduced dependence and a gradual phasing out due to their unfavourable health effects and emergence of alternative raw materials including metal hydroxides. In Europe, the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) and the EU Directive on the Restriction of Hazardous Substances Directive (RoHS) has banned several halogenated compounds and other materials from use as additives in plastics. In the US, the EPA probes the health and environmental effects of several chemicals but lacks sufficient power to ban them. However, several harmful chemicals have been restricted through legislations in various countries or voluntarily phased out by manufacturers due to their health concerns.

What The Report Offers:

Extensive market analysis, with regional and global specific assessments
Key insights on rising prospects and market scenarios
Micro and macro factors affecting both globally and regionally
In-depth competitor analysis
Identification of key Drivers and Restraints for the market and an updated market definition
Reasons for Buying this Report:

Any report gives an in-depth analysis on a plethora of topics that could prove beneficial for any business. By possessing this report, you will:

Have valuable insights on trends and prospects.
Gain an exhaustive understanding of the worldwide market.
Recognise industry players and possess key industrial financial information.
Have an in-depth understanding on the factors driving and restraining the market.

Please note: As this product is updated at the time of order, dispatch will be 72 hours from the date the order and full payment is received.
Contents:

1. INTRODUCTION
1.1 Research Methodology
1.1.1 Definition of the Market
1.1.2 Report Description
1.1.3 Executive Summary

2. KEY FINDINGS OF THE STUDY

3. MARKET OVERVIEW
3.1 Market Segmentation
3.2 Overview
3.3 Industry Value Chain Analysis

4. MARKET DYNAMICS
4.1 Introduction
4.2 Drivers
4.2.1 Infrastructure Industry Growth
4.2.2 Consumer Electronics Industry Growth
4.2.3 Emergence of more stringent fire safety standards and legislation
4.2.4 Better standards of living in emerging economies driving demand for safer products
4.3 Constraints
4.3.1 Legislations banning halogenated flame Retardants
4.3.2 Increasing costs of raw materials
4.4 Opportunities
4.4.1 Emergence of specialised and niche markets
4.4.2 Demand for environment friendly flame retardants
4.5 Porter's Five Forces
4.5.1 Bargaining Power of Suppliers
4.5.2 Bargaining Power of Buyers
4.5.3 Threat of New Entrants
4.5.4 Threat of Substitute Products and Services
4.5.5 Degree of Competition

5. Technology Overview
5.1 Technology Snapshot
5.2 Development of Environment Friendly Products

6. MARKET ANALYSIS AND FORECAST
6.1 Global Market by Application-
6.1.1 Electrical and Electronics
6.1.2 Building Insulation
6.1.3 Wire and Cable
6.1.4 Automotive
6.1.5 Textiles
6.1.6 Others
6.2 Global Market by Application-
6.2.1 Inorganic Compounds
6.2.1.1 Aluminum hydroxide
6.2.1.2 Magnesium hydroxide
6.2.1.3 Zinc borate and stannate
6.2.1.4 Antimony Oxides
6.2.2 Brominated
6.2.3 Chlorinated
6.2.4 Nitrogen based
6.2.5 Phosphorus based
6.2.6 Nanocomposites
6.2.7 Others
6.3 Global Market - Segmented By Region (Market Size, Forecast and CAGR)
6.3.1 Asia Pacific
6.3.1.1 China
6.3.1.2 India
6.3.1.3 Japan
6.3.1.4 Others
6.3.2 Europe
6.3.2.1 Germany
6.3.2.2 Russia
6.3.2.3 France
6.3.2.4 United Kingdom
6.3.2.5 Italy
6.3.2.6 Others
6.3.3 North America
6.3.3.1 USA
6.3.3.2 Canada
6.3.3.3 Mexico
6.3.4 Rest of the World
6.3.4.1 Brazil
6.4 Competitive Landscape
6.4.1 Mergers & Acquisitions
6.4.2 Joint Ventures
6.4.3 New Product Launches
6.4.4 Biggest Companies by Revenue
6.4.5 Most active companies in the past three years
6.4.6 Market Share Analysis
6.5 Company Profiles
6.5.1 BASF SE
6.5.1.1 Overview
6.5.1.2 Major Products and Services
6.5.1.3 Financials
6.5.1.4 Recent Developments
6.5.2 Akzo Nobel N.V.
6.5.2.1 Overview
6.5.2.2 Major Products and Services
6.5.2.3 Financials
6.5.2.4 Recent Developments
6.5.3 Clariant AG
6.5.3.1 Overview
6.5.3.2 Major Products and Services
6.5.3.3 Financials
6.5.3.4 Recent Developments
6.5.4 Chemtura Corporation
6.5.4.1 Overview
6.5.4.2 Major Products and Services
6.5.4.3 Financials
6.5.4.4 Recent Developments
6.5.5 Albemarle Corporation
6.5.5.1 Overview
6.5.5.2 Major Products and Services
6.5.5.3 Financials
6.5.5.4 Recent Developments
6.5.6 DuPont
6.5.6.1 Overview
6.5.6.2 Major Products and Services
6.5.6.3 Financials
6.5.6.4 Recent Developments
6.5.7 Sherwin-Williams Co.
6.5.7.1 Overview
6.5.7.2 Major Products and Services
6.5.7.3 Financials
6.5.7.4 Recent Developments
6.5.8 Tosoh Corp.
6.5.8.1 Overview
6.5.8.2 Major Products and Services
6.5.8.3 Financials
6.5.8.4 Recent Developments
6.5.9 Israel Chemicals Ltd (ICL-IP)
6.5.9.1 Overview
6.5.9.2 Major Products and Services
6.5.9.3 Financials
6.5.9.4 Recent Developments
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Global Market for Flame Retardant Chemicals Segmented by Application, Composition and Geography (2015-2020)
Web Address: http://www.researchandmarkets.com/reports/3618564/
Office Code: SCBRPO6F

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>
<th>Price</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electronic (PDF) - Single User:</td>
<td>USD 4250</td>
</tr>
<tr>
<td>Electronic (PDF) - 1 - 5 Users:</td>
<td>USD 4500</td>
</tr>
<tr>
<td>Electronic (PDF) - Enterprisewide:</td>
<td>USD 8750</td>
</tr>
</tbody>
</table>

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: ___________________________ Last Name: ___________________________
First Name: ___________________________ Email Address: *
Job Title: ___________________________
Organisation: ___________________________
Address: ___________________________
City: ___________________________
Postal / Zip Code: ___________________________
Country: ___________________________

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer:
Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
