Global Consumer Healthcare Market 2016-2020

Description: About Consumer Healthcare

The characteristics of consumer health products vary widely, with the two most important elements being the consumer needs they address and the strength of the claims made. The market for consumer-focused healthcare products is increasingly occupying the space between consumer needs and growing prevalence of lifestyle diseases. As consumer health companies develop a combination of consumer goods and pharmaceuticals, they have the ability to engage consumers by proving the clinical effectiveness of their products. These companies recognize unmet consumer needs and develop inventive ways to establish their presence in the marketplace.

Allergy care, dietary supplements, feminine care, pain relief, respiratory, and oral health are among the popular consumer health product categories. Some well-known products in the market are Voltaren and Panadol by GlaxoSmithKline; Lactacyd and Dermacyd by Sanofi; and Nexium, Advil, and Caltrate by Pfizer.

The analysts forecast the global consumer healthcare market to grow at a CAGR of 9.26% during the period 2016-2020.
