Ion Channels in Health and Disease. Perspectives in Translational Cell Biology

Description: Ion Channels in Health and Disease provides key insight to allow researchers to generate discoveries across disease states. A single resource that integrates disparate areas of biology and disease ion channel biology, this publication includes cross-referencing for disease, channels, and tissues. Offers a broad view of research of interest to early and experienced researchers across biological and biomedical research.

- Provides an overview of fundamental concepts in ion channels research to link defects in human disease
- Written in an accessible manner, without jargon
- Provides a helpful, easy cross-reference for diseases, channels, and tissues

Contents:
1. Calcium channel auxiliary subunits in pain management
2. Sodium channels and pain
3. Voltage-gated ion channels in cancer
4. Novel channels regulating somatosensation
5. Ion channels in epilepsy
6. Skeletal myopathies caused by channelopathies
7. Endocrine disorders caused by channelopathies
8. Emerging roles of CaCC channels in health and disease
9. New roles for ion channels in neuropsychiatric disorders
10. Pharmacology and pathophysiology of calcium channels
11. Inherited cardiac arrhythmias
12. Ion channels and diabetes
13. Migraines and calcium channels
14. Immunity and ion channels

Ordering:
Order Online - [http://www.researchandmarkets.com/reports/3627055/](http://www.researchandmarkets.com/reports/3627055/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.
