Psychology. 4th Australian and New Zealand Edition

Description: Building on the success of the market-leading and award-winning previous editions, Psychology: 4th Australian and New Zealand Edition has been thoroughly updated to provide comprehensive coverage of contemporary local and international data, research and examples in the dynamic field of psychology. Emerging and evolving topics that receive increased coverage in the new edition include social media, the digital age and adolescent cognitive development, attitudes towards asylum seekers, investigative psychology, and the changes to the fifth edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM–5). A key strength of the text and its extensive print and online accompanying resources continues to be its integrated coverage of cross-cultural and indigenous psychology, which is a requirement for the professional accreditation of Psychology degree programs.

The text and its associated resources are ideal for both Psychology majors and those taking only a one-semester study of Psychology.

Optional student resources to accompany this text

- An Interactive Approach to Writing Essays and Research Reports in Psychology: a practical and thorough overview of writing in the psychology discipline, based on the latest edition of the APA Publication Manual
- AssignMentor: a resource that includes interactive online templates that will guide you in writing essays, research reports and literature reviews in psychology, using correct APA referencing techniques

Contents:

Preface xiii

About the authors xvi
