Galley Equipment Market by Fit (Line Fit, Retro Fit), by Galley Type (Single Aisle, Twin Aisle, Business Aviation), by Galley Inserts (Electric Inserts and Non-Electric Inserts), by Application (Aviation, Marine), by Geography - Global Forecast 2020

Description:
“Increasing demand for modular galleys is driving the galley equipment market”
According to the projections in the report, the galley equipment market is estimated to grow from USD 5.17 billion in 2015 to USD 6.36 billion by 2020, at a CAGR of 4.21% during the forecast period from 2015 to 2020. Factors that drive the global galley equipment market include need for modular galleys, increasing aircraft deliveries and increasing demand for lightweight galleys. Significant growth in passenger traffic across the globe has resulted in increase in demand for commercial aircraft, which, in turn, influenced the demand for galley equipment positively.

“Aviation segment to witness the highest growth during the forecast period”
The key applications considered for the market study are aviation and marine. The aviation segment is projected to grow at a comparatively higher CAGR during the forecast period of 2015 to 2020. This growth is mainly driven by the increasing aircraft deliveries across APAC and ME regions. Galley equipment is mainly used in aircraft to serve fresh and healthy food to the passengers. The growth in aircraft deliveries, coupled with rising passenger traffic, is expected to drive the demand for aviation galley equipment over the forecast period.

“The Asia-Pacific region to offer significant opportunities for growth”
The APAC region is expected to witness the highest growth rate in the galley equipment market during the forecast period from 2015 to 2020. This growth in the galley equipment market can be attributed to new aircraft deliveries in the region. There is a significant rise in air passenger traffic in this region owing to growth in international tourism and increasing disposable income of individuals in developing countries, such as India and China.
