Construction Equipment Rental Market Analysis By Product (Earthmoving, Material handling, Concrete & Road Construction) And Segment Forecasts To 2022

Description: The construction equipment rental market is expected to reach USD 84.60 billion by 2022.

Availability of wider range of modern, productive machinery in rental fleets coupled with infrastructural development occurring at brisk pace is projected to drive demand. Significant factors such as the cost inflation associated with the replacement of equipment and the technical changes pertaining to machinery requirement has positively favored rental demand. Environmental and safety issues make it more economical. Further, considerable shift towards renting over buying due to less immobilized capital, low maintenance, improved cost control and reduction in transportation fleets are expected to boost revenue growth over the forecast period.

Stringent regulations, financial constraints and increasing cost of ownership makes it a considerable alternative for various government authorities, contractors and other users. The manufacturers are aggressively focused on providing tailored solutions and financial packages in order to meet the requirement of individual customers which is further projected to drive growth over the forecast period.

Reduced burden of upfront investment, and eliminated risk of expensive breakdown repairs, is expected to offer lucrative growth opportunities. For instance, over 80% of the machinery sold in the UK goes to the plant hire companies.

Further key findings from the study suggest:

Earthmoving machinery rental market accounted for over 55% of the overall revenue in 2014. Growing demand for heavy machinery from developing countries is estimated to drive the segment growth. Emergence of advanced products with low maintenance and eco-friendly features are projected to outcast traditional products over the forecast period.

North America construction equipment rental industry in 2014 is estimated to grow at a CAGR of over 10% from 2015 to 2022. Strong economic recovery coupled with increasing investments is projected to compliment demand across this region. However, increasing investments in Eastern Europe combined with volatile energy pricing and regulations is estimated to offer prominent opportunities across the European region. Residential sector is estimated to grow substantially across the Europe Central owing to new building start-ups and improved consumer confidence.

Asia Pacific construction equipment rental market accounted for over 27% of the overall revenue in 2014. Substantial growth is estimated to be witnessed across countries such as China owing to government requirements of state-owned enterprises for operating efficiently from a financial perspective, continued privatization of the industry, increased health and safety regulation and increasing labor costs. Construction equipment rental market share is occupied by companies such as United, Loxam Group, Sunbelt, Finning International and Neff. Key vendors have been reinforcing their foundations in the presence of increasing demand and rising costs. Total value of construction, R&D expenditure, increasing regulations and import competition are few factors influencing the product price and firms to evaluate their purchasing strategies.

Contents:

1. Methodology and Scope
   1.1. Research Methodology
   1.2. Research Scope & Assumption
   1.3. List of Data Sources

2. Executive Summary
   2.1. Construction equipment rental- Industry snapshot and key buying criteria, 2012 - 2022

3. Construction Equipment Rental Industry Outlook
   3.1. Market segmentation
3.2. Market size and growth prospects
3.3. Construction equipment rental value chain analysis
3.3.1. Vendor landscape
3.4. Construction equipment rental market dynamics
3.4.1. Market driver analysis
3.4.1.1. Access to advanced and updated technology
3.4.1.2. Improved customer service
3.4.2. Market restraint analysis
3.4.2.1. Additional expenses
3.5. Key opportunities prioritized
3.6. Industry analysis - Porter's
3.7. Construction equipment rental - Key competitor analysis, 2014
3.7.1. Company strategy overview
3.8. Construction equipment rental market PESTEL analysis, 2014

4. Construction Equipment Rental Product Outlook
4.1. Earthmoving
4.1.1. Global market estimates and forecasts by region, 2012 - 2022 (USD Million)
4.2. Material handling
4.2.1. Global market estimates and forecasts by region, 2012 - 2022 (USD Million)
4.3. Concrete and road construction
4.3.1. Global market estimates and forecasts by region, 2012 - 2022 (USD Million)

5. Construction Equipment Rental Regional Outlook
5.1. North America
5.1.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.1.2. U.S.
5.1.2.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.1.3. Canada
5.1.3.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.2. Europe
5.2.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.2.2. Germany
5.2.2.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.2.3. UK
5.2.3.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.3. Asia Pacific
5.3.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.3.2. China
5.3.2.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.3.3. India
5.3.3.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.3.4. Japan
5.3.4.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.4. Latin America
5.4.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
5.5. MEA
5.5.1. Construction equipment rental market by product, 2012 - 2022 (USD Million)
