Cancer Cachexia - Pipeline Review, H1 2016

Description: Cancer Cachexia - Pipeline Review, H1 2016

Summary

‘Cancer Cachexia - Pipeline Review, H1 2016’, provides an overview of the Cancer Cachexia pipeline landscape.

The report provides comprehensive information on the therapeutics under development for Cancer Cachexia, complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The report also covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases. Additionally, the report provides an overview of key players involved in therapeutic development for Cancer Cachexia and features dormant and discontinued projects.

The report features investigational drugs from across globe covering over 20 therapy areas and nearly 3,000 indications. The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Drug profiles featured in the report undergoes periodic review following a stringent set of processes to ensure that all the profiles are updated with the latest set of information. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

The report helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

Note*: Certain sections in the report may be removed or altered based on the availability and relevance of data.

Scope

- The report provides a snapshot of the global therapeutic landscape of Cancer Cachexia
- The report reviews pipeline therapeutics for Cancer Cachexia by companies and universities/research institutes based on information derived from company and industry-specific sources
- The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages
- The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities
- The report reviews key players involved Cancer Cachexia therapeutics and enlists all their major and minor projects
- The report assesses Cancer Cachexia therapeutics based on drug target, mechanism of action (MoA), route of administration (RoA) and molecule type
- The report summarizes all the dormant and discontinued pipeline projects
- The report reviews latest news related to pipeline therapeutics for Cancer Cachexia

Reasons to buy

- Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies
- Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage
- Identify and understand important and diverse types of therapeutics under development for Cancer Cachexia
- Identify potential new clients or partners in the target demographic
- Develop strategic initiatives by understanding the focus areas of leading companies
- Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics
- Devise corrective measures for pipeline projects by understanding Cancer Cachexia pipeline depth and focus of Indication therapeutics
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
- Modify the therapeutic portfolio by identifying discontinued projects and understanding the factors that drove them from pipeline

AUSRM-057 - Drug Profile
Product Description
Mechanism of Action
R&D Progress
landogrozumab - Drug Profile
Product Description
Mechanism of Action
R&D Progress
macimorelin acetate - Drug Profile
Product Description
Mechanism of Action
R&D Progress
Monoclonal Antibody to Antagonize TWEAK Receptor for Cachexia - Drug Profile
Product Description
Mechanism of Action
R&D Progress
Monoclonal Antibody to Antagonize TWEAK Receptor for Cachexia and Cancer Cachexia - Drug Profile
Product Description
Mechanism of Action
R&D Progress
NBD Peptide - Drug Profile
Product Description
Mechanism of Action
R&D Progress
OBX-1201 - Drug Profile
Product Description
Mechanism of Action
R&D Progress
RQ-00433412 - Drug Profile
Product Description
Mechanism of Action
R&D Progress
ruxolitinib phosphate - Drug Profile
Product Description
Mechanism of Action
R&D Progress
Small Molecule to Inhibit ATGL for Cancer Cachexia and Type 2 Diabetes - Drug Profile
Product Description
Mechanism of Action
R&D Progress
Synthetic Peptide to Inhibit Melanocortin Receptor for Cancer Cachexia - Drug Profile
Product Description
Mechanism of Action
R&D Progress
Synthetic Peptides for Cancer Cachexia - Drug Profile
Product Description
Mechanism of Action
R&D Progress
tertomotide - Drug Profile
Product Description
