
Description: The global semi-automatic filling equipment and manual filling equipment market is projected to reach USD 4.52 billion by 2020, at a CAGR of 4.9% between 2015 and 2020. Increasing concern over reduction of errors and the need for time-saving operations are additional drivers propelling the growth of this market. “The food & beverages segment is the fastest-growing application” The food & beverages segment led the global filling equipment market, by application in 2014. This segment is expected to grow at the highest CAGR from 2015 to 2020. The growth of this application segment can be attributed to increase in demand of manufacturers for improved production efficiency and creative packaging in the food & beverage industry. “Asia-Pacific is leading market” Asia-Pacific led the global filling equipment market, and this dominance is expected to continue during the forecast period. The emerging middle class population in countries, such as China and India, is escalating the demand for consumer goods, healthcare, and high quality lifestyle, thereby making Asia-Pacific a promising market for filling equipment.
