North America Water Storage Systems Market by Material Type (Concrete, Steel) Application (Hydraulic Fracture Storage & Collection, Onsite Water & Wastewater Collection), End-Use Industry (Municipal, Industrial) and Country - Forecast to 2020

Description: The North America water storage systems market was valued at USD 2.45 Billion in 2014 and is expected to reach USD 4.14 Billion by 2020, at a CAGR of 9.1% from 2015 to 2020. Growing population, scarcity of clean water, and growing industrial activities are factors driving the market of water storage systems in North America.

Among the various materials that are used to construct water storage systems, concrete is the most commonly used material. Concrete is widely available and is less expensive than the other types of material, including steel, fiberglass, plastic, and so on. The concrete-based water storage systems are extremely durable and provide strength to the entire storage system structure.

Concrete has been widely used in the North American region for many years and it has become one of the conventional materials for the construction of water storage systems. The consumer's preference towards the concrete-based water storage systems and their reduced cost will help the concrete type segment to hold the largest market share in the near future as well.

Hydraulic fracture storage and collection is the largest application segment of the North America water storage systems market. Water storage systems are used to store both fresh and wastewater in the oil and gas industry. The hydraulic fracture technique in oil & gas extraction uses water extensively. Water to be used in the fracturing process must be stored, and the used water after the process must also be stored and treated, before further reuse or release into the environment. The demand for water systems in North America is increasing owing to the rising oil and gas activities in the region.

Among the various end-use industries, the municipal segment held the largest share of the North America water storage systems market. Municipal is responsible for the distribution and supply of water to cities, towns, and domestic & public service enterprises. The huge distribution network of municipal consists of water storage systems to store as well as deliver water when needed.

All operations require these water storage systems, be it for storage before treatment or for storage of the treated water. These factors make municipal the largest end-use segment in the NA water storage systems market. Growing population and rapid urbanization are factors driving the demand of water storage systems in the municipal end-use segment.

The U.S. is the largest market for water storage systems in North America. The increasing industrial and oil & gas activities, and the growing water demand for day-to-day activities drive the country's water storage systems market. The U.S. has one of the largest proven oil and gas reserves in the world. The exploitation of these reserves is expected to significantly increase the demand for water storage systems. Water scarcity and the depleting groundwater resources in the U.S. will also drive the water storage systems market in the country.

Contents: 1 Introduction 1.1 Objectives of the Study 1.2 Market Definition 1.3 Market Scope 1.3.1 Markets Covered 1.3.2 Years Considered for the Study 1.4 Currency & Pricing 1.5 Stakeholders 2 Research Methodology
2.1 Research Data
2.1.1 Secondary Data
2.1.1.1 Key Data From Secondary Sources
2.1.2 Primary Data
2.1.2.1 Key Data From Primary Sources
2.1.2.2 Key Industry Insights
2.1.2.3 Breakdown of Primaries
2.2 Market Size Estimation
2.2.1 Bottom-Up Approach
2.2.2 Top-Down Approach
2.3 Market Breakdown & Data Triangulation
2.4 Research Assumptions

3 Executive Summary

4 Premium Insights
4.1 Attractive Opportunities
4.2 Water Storage Systems Market, By Material Type
4.3 Water Storage Systems Market in North America
4.4 Leading Countries in the Market
4.5 North America Water Storage Systems Market Size, By Application, 2015 vs 2020 (USD Million)
4.6 Market, By End-Use Industry, 2014
4.7 Lifecycle Analysis, By Country

5 Market Overview
5.1 Introduction
5.2 Market Segmentation
5.2.1 North America Water Storage Systems Market, By Material Type
5.2.2 Market, By Application
5.2.3 Market, By End-Use Industry
5.2.4 Market, By Country
5.3 Market Dynamics
5.3.1 Drivers
5.3.1.1 Growing Concerns for Conservative Water Usage
5.3.1.2 Water Scarcity in Southern U.S. States
5.3.1.3 Growing Use of Water in Industrial and Commercial Sectors
5.3.2 Restraints
5.3.2.1 Considerable Capital Investment and Funding Requirement
5.3.3 Opportunities
5.3.3.1 Focus on Recycle and Reuse
5.3.4 Winning Imperatives
5.3.4.1 Focus on Product Innovation and Modification

6 Industry Trends
6.1 Introduction
6.2 Value Chain Analysis
6.3 Porter's Five Forces Analysis
6.3.1 Bargaining Power of Suppliers
6.3.2 Bargaining Power of Buyers
6.3.3 Threat of Substitutes
6.3.4 Threat of New Entrants
6.3.5 Intensity of Competitive Rivalry

7 North America Water Storage Systems Market, By Material Type
7.1 Introduction
7.2 Market Size & Projection
7.3 Concrete
7.4 Steel
7.5 Fiberglass
7.6 Plastic
7.7 Others

8 Market, By Application
8.1 Introduction
8.2 Hydraulic Fracture Storage & Collection
8.3 Onsite Water & Wastewater Collection
8.4 Potable Water Storage
8.5 Fire Suppression Reserve & Storage
8.6 Rainwater Harvesting & Collection
8.7 Other Applications

9 North America Water Storage Systems Market, By End-Use Industry
9.1 Introduction
9.2 Municipal
9.3 Industrial
9.4 Commercial
9.5 Residential

10 Regional Analysis
10.1 North America
10.1.1 U.S.
10.1.2 Canada
10.1.3 Mexico

11 Competitive Landscape
11.1 Overview
11.1.1 New Product Launches and Mergers & Acquisitions: the Most Popular Growth Strategies
11.3 Maximum Developments in 2012 and 2013
11.4 New Product Launches
11.5 Mergers & Acquisitions
11.6 Expansions
11.7 Agreements & Contracts

12 Company Profiles
(Overview, Products & Services, Strategies & Insights, Developments and MnM View)*
12.1 ZCL Composites Inc.
12.2 Synalloy Corporation
12.3 AG Growth International Inc.
12.4 Chicago Bridge & Iron Company N.V. (CB&i)
12.5 BH Tank
12.6 Caldwell Tanks
12.7 Containment Solutions, Inc.
12.8 CST Industries, Inc.
12.9 DN Tanks
12.10 HMT
12.11 Maguire Iron Inc.
12.12 Contain Enviro Services Ltd.
12.13 Tank Connection
12.14 Roth Industries Inc.
12.15 Crom Corporation
12.16 Snyder Industries Inc.
