Nomex Honeycomb Market by Application (Aerospace & Defense, Transportation, Sporting Goods and Others), Aerospace & Defense, Sub Application (Interior and Exterior), and by Region - Global Forecasts to 2021

Description: The global Nomex honeycomb market is projected to grow from USD 237.1 million in 2015 to USD 383.3 million by 2021, at a compound annual growth rate (CAGR) of 8.51% between 2016 and 2021. This high growth is attributed to increasing use of Nomex honeycomb in the aerospace & defense application. Nomex honeycomb provides additional strength to the components.

“Aerospace & defense application holds the largest market share in Nomex honeycomb market” The aerospace & defense application accounts for the largest share of the Nomex honeycomb market. Nomex honeycomb are lightweight and provide additional strength to components and are, hence, suitable for use in aerospace & defense application. Composite structures are designed to survive extreme operating conditions such as high stress, shock and impact loads. These requirements of complex aerospace structures are fulfilled by Nomex honeycomb. Nomex honeycomb also provide the advantages of negligible maintaining costs as they are corrosion resistant, thus saving maintenance costs and increasing average lifespan.

“North America projected to be the fastest-growing Nomex honeycomb market” North America dominated the Nomex honeycomb market followed by Europe. North America has some of the major aerospace & defense component and part manufacturing companies that use Nomex honeycomb as their core material. The U.S is expected to have the largest market share in the North American region due to its growing aerospace and defense industry in the region.
